PREFACE

It gives me immense pleasure to submit the Self Study Report (SSR) to the National Assessment and Accreditation Council (NAAC), Bengaluru, for the first cycle Assessment and Accreditation of Swami Vivekanand Subharti University, Meerut, U.P.

The University was established in 2008 by Government of Uttar Pradesh under the Swami Vivekanand Subharti Vishwavidyala Uttar Pradesh Adhiniyam, 2008 (UP Act No.29 of 2008) as passed by the Uttar Pradesh Legislature and assented to by the Hon'ble Governor of Uttar Pradesh on September 05, 2008. The University has been recognized by the University Grants Commission under Section 2 (f) of the UGC Act, 1956.

'Subharti' was started as a noble mission with the aim to contribute to our mother India by serving its people by Dr. Atul Krishna and his better half Dr. Mukti Bhatnagar. Graced with fore vision, versatility, a genius mind and gifted with a vibrant and vivacious personality, the founders are not only reputed doctors of northern India but great philanthropists, learned thinkers, visionaries, staunch social reformers, dedicated to the upliftment of the downtrodden and weaker sections of society.

The name 'Subharti' is not just a name but a movement. A movement of converting the youth into "Su" meaning "Good", "Bharti" meaning "an Indian", "a good Indian". It is a revolution of love and sacrifice to bring people together by removing hatred, spreading love, building up of moral and national character, and service of mankind so as to make the dream of "VASUDHAIV KUTUMABKAM" come true. It is an effort towards Social reformations by establishing a casteless society, by removing communalism & terrorism. It is an expression of gratitude to those who sacrificed their lives to the cause of humanity, equality and independence of our motherland, thus

committing itself to the cause of NATIONAL INTEGRATION. What better medium could be to spread the message of these high ideas than establishing educational institutions and roping the youth in the chain? With this idea several higher secondary level schools were opened in villages and suburban areas and then this University was established for providing higher education. In the same light this University has been named after one of the most illustrious sons of this country – Swami Vivekanand.

They dream of bringing about a change in the society was not possible without establishing charitable primary, secondary level schools, rural hospitals, camps and donating to the underprivileged. These activities were started by a little boy, Atul Bhatnagar in as a teenager under the banner of Subharti Bal Sanstha- Subharti Sewa Sanstha and finally were taken up under the Subharti K.K.B.Charitable Trust, which made its debut in the year 1991. Having realized that education for this region is absolutely essential for the development of the society, the trust took upon them to promote academic as well as professional education, as front runner in the region. Thus institutions of education and training that would produce highly skilled professionals and researchers of academic excellence in every field and all aspects of life Swami Vivekanand were established.

Swami Vivekanand Subharti University established with the motto, 'Where Education Is A Passion', is a University with a difference. More than a teaching institution, it is a mission meant to nurture traits of patriotism and selfless service within youth. There cannot be a better way to remember the National Heroes and to salute their services than the path chosen by the Founders of this University by naming different colleges, buildings, roads, crossings etc. in names of heroes from every state of the country and from all religions, castes & creed, naming a few Chattrapati Shivaji, Sardar Patel, Guru Gobind Singh, Netaji Subhash Chandra Bose, Dr. Bhim Rao Ambedkar, Ashfaq Ullah Khan, Maj. Abid Hasan, Col. Laxmi Sehgal, Rani Laxmibai, Khan Abdul Ghaffar Khan, Bhikaji Cama, Shyma Prasad Mukherjee, Gopabandhu Das, Ram Manohar Lohiya, Lachit Bar Phukan, Birsa Munda, Rani Velu Nachiar, Rani Chennamma, Rani Durgawati, Narain Guru, Vir Padya Kattboman and many more.

Founded in 2008, Swami Vivekanand Subharti University is privileged to confer degree to 2519 students in various disciplines. Today, close to 10,000 students are pursuing quality education that is leading them to legitimately rewarding career opportunities. The University is enriched with a strong faculty body of about 700 consisting of highly qualified and motivated individuals, many of them with advanced degrees from universities/institutions of National repute. They champion the adoption of latest teaching methods and constantly keep abreast with the latest technological and industrial advances. With such exposure and learning our students are ideally prepared to start their careers on a firm footing manner, and confidently enter into the commercial world.

With over 3000 campus residents, the 150 acre lush green Wi-Fi enabled campus, Swami Vivekanand Subharti University gives a vibrant, energetic feel at all times. A brief profile of the University in terms of curriculum development, teaching learning aspects, research and consultancy, student support and progression, infrastructure, governance system and innovative practices is highlighted in subsequent paragraphs.

Curricular Aspects

The University promotes high quality Curriculum Design and Development mechanism for its entire academic programs periodically. The process is aimed at developing dynamism in the curriculum and make it need based.

It runs various programs recognized by MCI, DCI, INC, PCI, BCI, NCTE and AICTE. The Academic Planning Committee /Curriculum Development Committee of the individual faculty design the curriculum, which is quite flexible and innovative in the cutthroat competitive market.

University provides a broad spectrum of courses ranging from core, elective, interdisciplinary and community engagement courses. An ideal balance is maintained between principle and practice orientation. Experiential learning outcomes are enshrined to evolve maximum outcome from it.

On receipt of the feedback received from stakeholders, Academic Planning Committee submits a proposal to Board of Studies (BOS) to update, revise, reframe, modify the existing curriculum or develop altogether a new curriculum. BOS initially reviews the proposal and approves the same, which is then sent to the Faculty Board for its approval. After due approval from the Faculty Board, the curriculum is placed before Academic Council. The curriculum is updated regularly with inputs from industry, Academia, Alumni, students and faculties.

Teaching, Learning and Evaluation

The University has 13 teaching faculties, 57 teaching departments, one advanced research station and many P.G research laboratories. Academic programs are offered in 13 Ph.D Programs, 12 M.Phil. Programs, 59 P.G. Programs, 57 U.G. Programs, 10 P.G. Diploma, 24 Diploma and 21 certificate programs. The directorate of Distance Education offers 32 programs through distance learning modes. It has close to 19,000 students and 40,000 alumni base, who are contributing their valuable service in national development activities. The University has inbuilt mechanism for the selection of students, for its programs. For Medicine and Dentistry, students are selected through, the U.P. state government mandatory joint entrance examination. For all other programs the University conducts centralized All India Entrance Examination (SNET), through both online and offline mode.

In order to attract meritorious students, special scholarship for girl students, talented sportspersons and students from the weaker sections are available. The University has a dynamic policy to attract students from foreign nationalities. They are exempted from entrance test.

In order to neutralize the admission year of the NRI/Foreign students. Under the scheme the students, whose results are delayed can take admission without losing a semester of their study.

The faculty members are given proper orientation to conduct multi disciplinary research projects, industry projects and internship for enhancing their learning experience. There are teachers with diverse teaching experience who have produced more than 3000 research publications and their citation and H-index have reached more than 12,000 and 765 respectively. Before the commencement of the new session, they prepare course outlines highlighting course objectives, delivery strategies, evaluation scheme, lab activity schedule and activities manual.

The University has started mentor-mentee system, collaborative learning program and ICT based teaching strategies for effective delivery of the curriculum components. Each academic program has core, elective, add on and ICT course.

Teachers use advanced pedagogical approach, such as remedial classes, tutorials, enrichment lectures, group projects and mastery learning procedures. The students conduct faculty guided research projects and produce original research output in their field. The University conducts Ph.D programs as per the UGC guidelines. In last 6 years 29 Ph.Ds were awarded.

The curriculum components are challenging, need based and relevant to their employment. The University follows continuous evaluation system. The performance of the students is evaluated through multiple evaluation criteria such as sessional tests, practical assignments, projects and attendance. Adequate transparency is maintained in finalization of results. Parent-Teachers Association is established in each Faculty, for academic growth of their children.

Research, Consultancy and Extension

The University has a prospective policy to establish itself as a research driven University in due course of time. In order to achieve this, the University has designed its Research and Development policy (R&D) and has been implementing the policy in a phased manner. The Vice Chancellor of the University is the chairman of the Research and Development Cell, which is headed by Dean-Research and two senior professors as its coordinators. Each Faculty is headed by Principal/Dean/Director and each department is headed by Head of The Department. Each Faculty has a Faculty Board and there is a Board of studies in each department to monitor academic related matters. The IQAC contributes in quality improvement in overall operation of the University. There are many internal committees in each Faculty/Department for exercising academic and administrative activities.

Innovations and Best Practices

The University strives to inculcate best practices and innovations in all the processes. Some of the Innovations are "Sanskaar-The Subharti tradition" and "from known to unknown".

- Technology Innovation Centre in the Faculty of Engineering and Technology has invented solar power driven auto rickshaw, air-cooler and bi-cycle.
- Wi-Fi connectivity and access to internet in all the academic buildings and hostels.
- ERP System as a part of Examination reforms.
- Partnership with industry players in diverse areas.
- Application of simulation exercises, showing motivational movies and heavy reliance on PPT's as a part of teaching

methodology.

- Extension activity as a part of social outreach programme.

The Strength, Weakness, Opportunity and Challenges Profile (SWOC)

- **Strength:**
  1. Evolved from the vibrant concept of Nationalism by eliminating hatred, spreading love, inculcation of sound morals and building a strong sense of Nationhood within the youth of the country.
  2. A culturally vibrant campus, having students from all corners of the country and seven foreign countries.
  3. Advanced Medical, Dental, Para-Medical and Holistic Medicine service available in the campus with charitable practices.
  4. Dynamic leadership and participatory governance procedures followed from top to bottom in the management system.
  5. Zero tolerance policy for discrimination, ragging, sexual harassment and drugs in the campus.
  6. 'Earn while Learn' policy is there to help students coming from low economic background.
  7. State of the art physical and instructional infrastructure for creating, updating and disseminating new learning experience.
  8. Value based professional education with wholesome growth of personality.
  9. ICT enabled campus, regular community empowerment program and Faculty recharge program.
- **Weakness:**
  1. Placement opportunities for the students are less owing to the non-metropolitan status of the city.
  2. Inadequate education level of parents for the academic growth of their wards.
  3. Limited participation of students due to orthodox home background as they belong to rural areas.
- **Opportunities:**
  1. Huge opportunities for the qualitative growth in professional education, since no other higher education institution in the vicinity have the resources like SVSU.
  2. Positive connectivity to the nearby community.
  3. Acceptance from the local Industries is highly expected, since the University is starting academic programs as per the local economic indicators.
  4. Various new programs in emerging disciplines, in all disciplines are proposed to attract students.
- **Challenges:**

1. The University needs to take prudent initiative to receive projects from Government bodies.
2. Development of leadership qualities among Faculty members as well as students so as to give them a meaningful stake in the developmental process of the University.
3. Financial constraints are major challenges since majority of students belong to middle class and even marginal fee hike affects the number of admissions.
4. Poor academic performance of the students from rural background is a stiff challenge for the University. It brings down their comprehension ability and adversely affects their interest in the course.
5. Attracting international students and even students from A-class cities of India are two major challenges.

Conclusion:

Envisioned with the vision of the founders, SVSU has been taking pro active initiatives to become a Centre for Excellence in technical, professional, academic education and research, at par with national and international standards. It wants to see itself a meaningful destination for academicians, innovative thinkers and social transformers not only through regular education but through open and distance learning programs. It is a commitment to encourage innovation in higher education, such as; entrepreneurship, community orientation, and over all empowerment of the society. The present initiative, i.e. besides being a mandatory exercise for each and every HEIs of India, is one of the intrinsic motivations of SVSU to understand its strength and optimum utilization of its resources in right direction for achieving excellence in its endeavors. Not only that it will critically evaluate its weakness and try to either eliminate them or transform them into opportunities. The University is just completed seven years of its existence. It has to go a long way with meaningful contribution to the society in general and the nation at large. It will continue its best practices in coming years and always remain open to innovation and new ideas. It will never forget the, noble message of great saint of India, Swami Vivekanand,**' *Arise, awake, and stop not till the goal is reached'.***

Criteria-wise Inputs

CRITERION I:
CURRICULAR ASPECTS

1.1 Curriculum Design and Development

1.1.1 How is the institutional vision and mission reflected in the academic programmes of the University?

The University is of the strong conviction that students after having completed their studies imbibe the qualities of global leadership to plan and execute both strategically and operationally.

1.1.2 Does the University follow a systematic process in the design and development of the curriculum? If yes, give details of the process (need assessment, feedback, etc.)

Yes.

The University follows a rigorous process in the design and development of the curriculum. The University has as many as 13 Faculty/Institutions consisting of departments. Each faculty has its Board of Studies (BOS) which assesses the needs of a particular course based on the feedback from industries, alumni and other stakeholders to design the curriculum. The Board consisting of HODs of the respective departments, representatives from industries, academics and alumni meet regularly and finalize the curriculum well in advance, based on the requirement. Once the curriculum has been finalized by the Board, it is placed before the Academic Council for final ratification by the Executive Council.

1.1.3 How are the following aspects ensured through curriculum design and development?

1. **Employability**-The curriculum as framed in consultation with experts from industry, academia and other stakeholders ensures employability of potential students both in academia and the industry.
2. **Innovation**-The curriculum design is not static but a dynamic process. Depending upon the feedback and requirements from the industry, innovations are brought from time to time and are implemented regularly.
3. **Research-** Theory building, empirical and applied research is given the utmost weightage in the curriculum design.

1.1.4 To what extent does the University use the guidelines of the regulatory bodies for developing and/or restructuring the curricula? Has the University been instrumental in leading any curricular reform which has created a national impact?

The University religiously follows the guidelines of various regulatory authorities like- MCI, DCI, INC, AICTE, PCI, NCTE and BCI, etc. for designing and/or restructuring the curriculum. The curriculum

addresses various national issues, such as unemployment, economic development, entrepreneurship development, communal harmony & integration, environmental protection, women empowerment, skill orientation and disaster management.

1.1.5 Does the University interact with industry, research bodies and the civil society in the curriculum revision process? If so, how has the University benefitted through interactions with the stakeholders?

Yes.

The University has immensely benefitted through interactions with the stakeholders in developing a curriculum leading to multi-tasking skills, categorizing core and optional subjects, ensuring multidisciplinary courses, exchanging fellowship programmes and above all signing of MOUs.

1.1.6 Give details of how the University facilitates the introduction of new programmes of studies in its affiliated colleges.

Not applicable

1.1.7 Does the University encourage its colleges to provide additional skill-Oriented programmes relevant to regional needs? Cite instances (not applicable for unitary universities).

1.2.5 Does the University facilitate dual degree and twinning programmes? If yes, give details.

No

1.2.6 Does the University offer self-financing programmes? If yes, list them and indicate if policies regarding admission, fee structure, teacher qualification and salary are at par with the aided programmes?

All the programmes being offered in the University are in the self-financing mode.

The policy relating to admission, fee structure, teacher qualification and salary payable to them is reasonably at par with the aided programmes in peer institutions. There are cases where the fee structure is comparatively lower compared to other institutions.

1.2.7 Does the University provide the flexibility of bringing together the conventional face-to-face mode and the distance mode of education and allow students to choose and combine the courses they are interested in? If 'yes,' give operational details.

No

1.2.8 Has the University adopted the Choice Based Credit System (CBCS)? If yes, for how many programmes? What efforts have been made by the University to encourage the introduction of CBCS in its affiliated colleges?

No

1.2.9 What percentage of programmes offered by the University follow:

- Annual system: **31%**
- Semester system: **69%**
- Trimester system: **Nil**

1.2.10 How does the University promote inter-disciplinary programmes? Name a few programmes and comment on their outcome.

The University has been endeavouring to promote inter-disciplinary programmes, for instance M.B.A in hospital administration is one such programme where students on completion of their studies are acquainted fully with business administration as well as hospital administration. Accordingly, this programme has led to specialization in two important disciplines, meeting the requirements of health industry and is the need of the hour especially in the super-speciality hospitals.

1.3 Curriculum Enrichment

1.3.1. How often is the curriculum of the University reviewed and upgraded for making it socially relevant and/or job oriented / knowledge intensive and meeting the emerging needs of students and other stakeholders?

The University has been reviewing, updating and upgrading the curriculum regularly after receiving feedback from various stakeholders to address the emerging needs.

1.3.2 During the last four years, how many new programmes at UG and PG levels were introduced? Give details.

Inter-disciplinary:

Programmes in emerging areas :

Name of Programme	Type	Year of Establishment
M.Sc. Food & Nutrition	PG	2012
M.Ed.	PG	2012
M.Phil (Education)	PG	2013
M.Phil (Physical Education)	PG	2013

M.Sc. Animation	PG	2014
B.Sc. Home Science	UG	2014
B.Com (Hons.)	UG	2014
M.P.A.	2years Degree Course	2014

1.3.3 What are the strategies adopted for the revision of the existing programmes? What percentage of courses underwent a syllabus revision?

Strategies adopted for the revision of the existing programmes are based on the discussions held in the Board of Studies, feedback from students and alumni, emerging needs and industry inputs, placement opportunities, etc. and are as per the guidelines of the regulatory bodies. Practical aspects like those pertaining to feasibility of teaching, learning outcomes, availability of infrastructural and academic support, etc. are also taken into account. The syllabi for 40% of the programmes have been revised during last three years.

1.3.4 What are the value-added courses offered by the University and how does the University ensure that all students have access to them?

The University has been offering many value-added courses like Soft Skill Development, Environment Education, Personality Development and English Speaking Classes through Language Lab. While some of

the value-added courses are optional, the programme on Environmental Studies is mandatory.

1.3.5 Has the University introduced any higher order skill development programmes in consonance with the national requirements as outlined by the National Skills Development Corporation and other agencies?

The University provides quality professional education to the youth to achieve national goals, such as Employment, Economic Stability and Democratic Citizenship. The following self financed skill development programs which are offered:

Skill Development Courses:

1.4 Feedback System

1.4.1 Does the University have a formal mechanism to obtain feedback from students regarding the curriculum and how is it made use of?

Yes, the University has a formal mechanism to obtain feedback from the students regarding the curriculum. It has recently introduced online feedback collection system as a part of its ERP project. This is very convenient, nimble, economical and environment friendly. This helps error free reporting and quick interpretation of results. On the basis of the feedback, necessary changes and revisions are considered as per the curriculum design/development policy of the University.

1.4.2 Does the University elicit feedback on the curriculum from National and International faculty? If yes, specify a few methods such as conducting Seminar, Workshops, Synopsis online discussions, etc. and its impact.

No

1.4.3 Specify the mechanism through which affiliated institutions give feedback on curriculum enrichment and the extent to which it is made use of.

Not Applicable

1.4.4 What are the quality sustenance and quality enhancement measures undertaken by the University in ensuring the effective development of the curricula?

The University is always looking forward from relevant institutions of national repute for development of the curriculum in quality sustenance & enhancement and picking up the unique features for adoption/adaptation.

CRITERION - II

TEACHING-LEARNING AND EVALUATION

2.1 Student Enrolment and Profile

2.1.1 How does the university ensure publicity and transparency in the admission process?

The University follows eligibility admission criteria prescribed by the regulatory bodies.

Transparency in admission is ensured on the basis of entrance exam conducted by various National/State agencies and also the test conducted by the University on its own.

2.1.2 Explain in detail the process of admission put in place by the university. List the criteria for admission:(*e.g.*:(i) merit,(ii) merit with entrance test, (iii) merit, entrance test and interview,(iv) common entrance test conducted by state agencies and national agencies (v) other criteria followed by the university (please specify).

Being a multi-faculty University, the process of admission varies from discipline to discipline. Admissions based on merit with entrance test are conducted in Nursing, Pharmacy, Engineering, Fine Arts, and Management & Law.

In Mass Media the admission is based on merit, entrance test and interviews.

Very few admissions are made, based on merit of qualifying examination for left over seats of the programme.

Medical and Dental programmes i.e. MBBS, MS, MD, BDS and MDS are based on common entrance test conducted by State agencies.

2.1.3 Provide details of admission process in the affiliated colleges and the university's role in monitoring the same.

Not Applicable.

2.1.4 Does the university have a mechanism to review its admission process and student profile annually? If yes, what is the outcome of such an analysis and how has it contributed to the improvement of the process?

Yes, an annual review is carried out every year just after completion of admission session.

During the admission session the student profile is reviewed by conducting an entrance examination, Subharti National Eligibility Test (SNET), prior to accepting the admission form of the student. If admission is on merit base then preference is given to those students who have obtained high marks in qualifying examination.

Based on the above annual analysis, the Admission Committee constructs the appropriate strategies and ensures the implementation of the same.

Before the beginning of the new admission season the old short comings and newer methods of approaching students and short-listings the deserving candidates are analyzed. Various internet mediums, media related programmes and other newer mediums are also analyzed to reach out to the cyber friendly generation of today.

Every year new schemes of scholarships, entrance tests and curriculum design is re-evaluated and modified. Special consideration is given to the education of girls and for trying to reach out to the genre for their education.

The annual review of admission process and student profile helps SVSU to spread out its reach for coming admission cycle. This helps not only to make the system more student-friendly but also to provide opportunities to the deserving candidates.

2.1.5 What are the strategies adopted to increase / improve access for students belonging to the following categories:

- **SC/ST/OBC**
- **Women**
- **Persons with disabilities**
- **Economically weaker sections**
- **Outstanding achievers in sports and other extra-curricular activities**

The University does not discriminate admission to SC/ST/OBC and persons with disabilities or students of economically weaker sections and outstanding achievers in sports or other extra-curricular activities. However, once the students have taken admission, the University has instituted a liberalized scholarship policy whether for sports, meritorious students or for women.

2.1.6 Number of students admitted in university departments in the last four academic years:

Categories	2012-13		2013-14		2014-15		2015-16	
	Male	Female	Male	Female	Male	Female	Male	Female
SC	177	170	192	141	358	282	207	132
ST	7	2	1	6	1	2	2	7
OBC	417	258	463	305	656	415	596	378
General	460	396	485	386	731	452	577	417
Others	117	36	172	67	129	46	148	59

2.1.7 Has the university conducted any analysis of demand ratio for the various programmes of the university departments and affiliated colleges? If so, highlight the significant trends explaining the reasons for increase / decrease.

Yes, the University conducted in depth analysis of demand ratio for the various programmes of the university departments and affiliated

colleges. The following comparable chart reflects the demand ratio analysis for the session 2015-16.

Comparable Chart for Demand Ratio Analysis

Programmes	Number of applications	Number of students admitted	Demand Ratio
UG	1534	1168	1.13:1
PG	305	227	1.34:1
Integrated Masters	N/A	N/A	N/A

PG Diploma	12	4	3:1
Any other (Please Specify)	N/A	N/A	N/A
Total	**2276**	**1645**	**1.38:1**

2.1.8 Were any programmes discontinued/ staggered by the university in the last four years? If yes, please specify the reasons.

Name of Programme	Reason
DNB (Ortho)	Induction of MS (Ortho) course
DNB(Anatomy)	DNB & PG Cannot run together
B.Tech in Information Technology	Insufficient no. of aspirants made the course non-viable.

2.2 Catering to Diverse Needs of Students

2.2.1 Does the university organize orientation / induction programme for fresher? If yes, give details such as the duration, issues covered, experts involved and mechanism for using the feedback in subsequent years.

Yes, in the first week of the new academic session, orientation programmes for fresher's are organized at University level and then at individual Faculty level. The duration of the University level induction/orientation program is one day, whereas at faculty level it is from 2-7 days.

Head of the department and the senior faculty in the department are involved during interaction with the new students and brief them about the salient features of the department. Interactions are also facilitated among fresher and senior students.

Students are also familiarized with staff in the department, programme schedule, courses and assessment structures, computer laboratories, facilities of scholarships and fee waivers, presence of placement cell, counseling cell, anti-ragging policies etc. Copy of the syllabus along

with the list of recommended books is provided to students in hard copy as well as made available on the website.

2.2.2 Does the university have a mechanism through which the "differential requirements of the student population" are analyzed after admission and before the commencement of classes? If so, how are the key issues identified and addressed?

The introductory session conducted at each department on the first day of the academic session helps in understanding and assessing the knowledge base and skills of the students.

Since the University is situated amidst rural habitation, issues like lack of communication skills, computer skills and quantitative aptitude, social and psychological adjustments are mainly addressed. Preparatory classes and counseling sessions are organized by the faculty members for boosting the confidence level of the students.

2.2.3 Does the university offer bridge/remedial/add-on courses? If yes, how are they structured into the timetable? Give details of the courses offered, department-wise/faculty-wise?

Following strategies are deployed to bridge the knowledge gap of the students:

• **Extra Classes**: The institution conducts remedial classes classes for slow learners in different subjects to enable them cope with the courses.

• **Personality Development Classes**: Academic excellence alone is not enough and cannot guarantee a good career. Certain personality attributes and soft skills are essential not only to get a good job placement but also to be able to contribute and grow in an organization. Taking cognizance of this, the university emphasizes all round development by conducting formal Personality Development Programs. These courses have been embedded in the programme curricula and classes are taken by professional trainers that include training in communication skills, group discussion, interpersonal skills and interviews. The whole exercise is intended to increase the employability of students.

• In addition to the above, some bridge courses are arranged in the departments in the beginning of the programme for the students for better understanding and to cope with the programme. Detail of some of the courses run/being run by the departments is given below:

Faculty	**Programme**	**Course**
Faculty of Dental Science	BDS	General English
Faculty of Para medicals	DMLT	General English
Faculty of Nursing	B.Sc.(Nursing)	General English

Faculty of Engineering and Technology	All B.Tech Programmes	Professional Communication & Personality Development
Faculty of Science	All B.Sc.	English Language
Faculty of Pharmacy	B.Pharma	Professional Communication
Faculty of Journalism & Mass Communication	BJMC	Professional Communication
Faculty of Law	BALLB	Professional Communication

Remedial courses-All slow learners are given remedial classes course wise. The schedule of these remedial classes is normally during preparatory leave. Mentors also play a major role in remedial classes.

Add-on Courses- Teaching methodology classes, ICT, life skill courses as and where required.

2.2.4 Has the university conducted any study on the academic growth of students from disadvantaged sections of society, economically disadvantaged, physically handicapped, slow learners, etc.? If yes, what are the main findings?

Yes, it has been observed that many students from the disadvantaged section of the society lack communication skills, computer skills and presentation skills and hence, they require improvement in the analytical and logical capabilities. Different departments take care of the need of the students in different ways, formally/informally.

Incentive in the form of fee concessions and scholarships, delivery of teacher's handouts, mentors facilitating a friendly environment and scheme like "Earn while Learn" have certainly helped in the academic growth of the deprived sections of the society.

2.2.5 How does the university identify and respond to the learning needs of advanced learners?

Identification of learning needs of advanced learners is done based on their meaningful discussion/interactions/performance in the theory/practical/seminar classes by the class teacher and course coordinator during each semester.

The University responds these learners in the following way:

- Advanced learners are encouraged to participate in workshops, conferences, seminars and symposia conducted by the University and other institutions and motivating them to publish their work in reputed journals.
- Giving them responsibilities of some in-house activities.
- Projecting them as team leaders.
- Providing them merit scholarship.
- Making them coordinators for various activities.
- Appointing them as peer tutors for some weak peers.

2.3 Teaching-Learning Process

2.3.1 How does the university plan and organize the teaching, learning and evaluation schedules (academic calendar, teaching plan, evaluation blue print, etc.)?

The University academic calendar is prepared in advance. The calendar includes the detailed academic activities of the programme during the semester/year. The faculty members prepare course outline for the individual course they are allotted. During the orientation program, the academic calendar, course outline and evaluation scheme are supplied to the students. The teaching learning and evaluation process are planned, designed and monitored by the faculty coordinators.

2.3.2 Does the university provide course outlines and course schedules prior to the commencement of the academic session? If yes, how is the effectiveness of the process ensured?

Yes, the classes are conducted as per the lecture schedule prescribed in the time-table and this system is very effective in covering the syllabus within the time frame prescribed for a semester/year.

2.3.3 Does the university face any challenges in completing the curriculum within the stipulated time frame and calendar? If yes, elaborate on the challenges encountered and the institutional measures to overcome these.

No.

2.3.4 How is learning made student-centric? Give a list of participatory learning activities adopted by the faculty that contributes to holistic development and improved student learning, besides facilitating life-long learning and knowledge management.

A buzz method of teaching is followed where the students turn to their neighbors for a quick buzz. The Buzz method of learning showcases the effectiveness of the lectures by analyzing the response of the students to the lectures delivered, through the participation of the learner in the discussions which are held periodically. This allows almost everyone to express an opinion. While they are buzzing, participants are able to exchange ideas and draw on their wide collective experience. It provides a good opportunity for learners to reflect on the content of a lecture. A buzz session generates many ideas, comments and opinion. It encourages participants to reflect on what they have learnt and how they might apply it in their work.

Some of participatory activities adopted by the faculty are:

- Use of ICT in lectures and tutorials
- Soft skill and personality development classes
- Career counseling workshops
- Industrial Visits
- Webinars

- Debate and Panel discussions
- Open House Sessions
- Group Discussions and Seminars
- Survey based field work and projects
- Experience sharing sessions with Entrepreneurs
- Quiz Competitions
- Case Studies
- Film screenings and Documentary preparation

2.3.5 What is the university's policy on inviting experts/people of eminence to deliver lectures and/or organize seminars for students?

- Each Department has an internal procedure too, for research and PG students in which the Departments invite experts on specific issues individually and discussions/lectures are held as per the need of the students and course curriculum and recommendations of BOS and Placement Coordinators.

The following guidelines are pursued for engaging guest and visiting policy by various departments:

- Faculty/Institution draws the requirements for guest/expert faculty of respective departments which is sent to the Vice Chancellor with budgetary estimate for prior approval.
- The guest faculty/expert are identified topic wise. The guest faculty must possess sufficient expertise and experience in the relevant domain. Guest faculty may be taken from academia or industry. Remuneration is recommended on a visit basis depending on the profile of the resource person. The guest faculty must bring some distinct value addition to the students.
- While forwarding proposals for guest faculty, a brief CV of the resource persons specifically highlighting their qualifications, expertise and experience is enclosed.

2.3.6 Does the university formally encourage blended learning by using e-learning resources?

Yes, the University formally encourages blended learning by using e-learning resources in the following ways:

- The Computer Centre of the University provides assistance to educate the students free of cost in acquiring computer skills such as Use of Internet, E-mail, Microsoft Excel, SPSS package, etc. Webinars are held at Computer Centre.
- The University has a central library which provides for the digital and e-learning resources. Various e-learning resources such as online Journals, CDs and online data bases through INFLIBNET are used by the students to enhance their knowledge.

- Faculty members provide references to printed books, the links of web tutorials, web resources and e-books to the students as e-learning resources.
- The free access intranet/internet connection in the University offers an interactive facility among the departments of study to share and support each other's needs. It provides an impetus to inter-disciplinary research and availing the database for investigative exercises in each other's domain. The students can enjoy the benefits of open source learning materials, online educative resources and special purpose software.
- Most of the departments are having subject specific databases, interactive learning software and e-learning resources for the benefit of the students and the faculty. Students are also exposed to open source reference materials and online educative resources.
- Computer aided presentation of the Science/ Engineering lessons as provided by NPTEL.

2.3.7 What are the technologies and facilities such as virtual laboratories, e-learning, open educational resources and mobile education used by the faculty for effective teaching?

- Educational CDs and DVDs are made available as a learning material.
- The University has subscriptions of various online database in which more than 17227 e-journals can be accessed. Online data base includes EBESCO Host, DELLNET, and British Library Open-source software such as MySQL, PHP, OpenOffice are also being used by the faculty for effective teaching.
- On-line and Off-line lectures of Pearson for engineering students and faculty.
- YouTube videos on recipes for hotel management students and faculty.
- Separate Mobile vans for medical and dental.
- Institutional membership of British Council Library.

2.3.8 Is there any designated group among the faculty to monitor the trends and issues regarding developments in Open Source Community and integrate its benefits in the university's educational processes?

Yes, a group of three to four persons from each faculty is identified to look into trends and issues regarding development in Open Source Community and give their feedback to their respective Heads.

2.3.9 What steps has the university taken to convert traditional classrooms into 24x7 learning places?

Each faculty has taken some or the other initiative to convert traditional classrooms into 24x7 learning places.

- PPTs of lectures available on institutional websites.
- Smart Board, LCD Projectors etc.
- Webinars
- On-line and Off-line lectures of Pearson for engineering students and faculty.
- YouTube videos on recipes for hotel management students and faculty.

2.3.10 Is there a provision for the services of counselors / mentors/ advisors for each class or group of students for academic, personal and psycho-social guidance? If yes, give details of the process and the number of students who have benefitted.

Yes, the University has created Mentor-Mentee system for the academic and personal guidance of students. Individual attention is given to each student. A group of students are allotted to a teacher for the wholesome development, grooming and nurturing the overall personality of each student. The project work and training programmes are completely faculty guided programmes. Faculty Coordinators are appointed for each class who facilitate smooth and timely conduction of teaching learning sessions. They solve the problems encountered by the students and students are guided to consult the specific teacher for solution to their problems. Class coordinators also monitor the issues related to attendance and completion of course.

The HOD/Dean and Head of the Faculty/Institution takes feedback from the faculty/coordinators/class monitors on day-to-day progress of academic activities. Teaching index is carried out frequently and faculty members are counseled on various issues related to academics.

2.3.11 Were any innovative teaching approaches/methods/practices adopted/put to use by the faculty during the last four years? If yes, did they improve learning? What were the methods used to evaluate the impact of such practices? What are the efforts made by the institution in giving the faculty due recognition for innovation in teaching?

The University stresses upon the need of developing cognitive, affective and psychomotor domains while sustaining and enhancing healthy teaching and learning quality. This diversity while planning the lectures helps to create more well-rounded learning experiences and meets a number of learning styles and learning modalities, thus aiding trouble-free recall. Knowledge is imparted by using multimedia methods and simultaneously the facilitator comprehends a learner's ability to understand the meaning of what has been taught and tries to simplify the deliberations while taking a student from his journey of known to unknown.

Some of the innovative teaching approaches/methods are as follows: Industrial Visits, Webinars, Seminars, Role Play, Presentation, City Visits, Educational Tours, on the job trainings and field works as different methods of teaching have improved the delivery and understanding of the students.

Digital technologies like LCD and smart boards are used. In addition, internet based discussions are encouraged by directing the students to present a relatively new advancement in the subject concerned. Video lessons are also used. Students are supplemented with e-resources by the course teacher. Continuing Education programs are used consistently for the past few years with good results.

Students are assigned live projects as case studies that are aimed at testing the application of theoretical concepts to industry situations. Students are divided into groups to work on projects and make class presentations to collectively work with team spirit and share their knowledge.

These innovative practices help the students to bring out the hidden talents, to better understand the subject, to augment inclination towards subject and to enhance active learning process.The effectiveness of these innovative practices is assessed by comparing the student's performance in examinations and other academic practices with previous teaching methods.

Feedback mechanism is used to evaluate the impact of such teaching practices.

To enhance involvement of teachers in such teaching practices, the teachers are given in-service training. The teaching aids like CDs, Pen drives, computers, projectors, etc. are also made available to the teachers. The innovative methodology adopted by a teacher is considered as an important criterion to assess the performance of teacher in his/her Career Advancement.

2.3.12 How does the university create a culture of instilling and nurturing creativity and scientific temper among the learners?

The University promotes participation of students in undertaking research activities like paper presentation, undertaking research projects, poster presentation and publications in reputed various journals.

Various academic activities like seminars, debate, essay competition, group discussions, symposia, field surveys, exhibitions are conducted to nurture creativity, critical thinking, and scientific temper among non-professional streams.

2.3.13 Does the university consider student projects mandatory in the learning programme? If yes, for how many programmes have they been (percentage of total) made mandatory?

- **Number of projects executed within the university**
- **Names of external institutions associated with the university for student project work**
- **Role of faculty in facilitating such projects**

Yes, at PG level, 100% programmes and at UG level, 80% of the programs have projects in their courses. Students of Medicine, Dentistry, Nursing, Pharmacy and Paramedical Disciplines generally work on the project topic, which are interdisciplinary in nature.

2.3.14 Does the university have a well qualified pool of human resource to meet the requirements of the curriculum? If there is a shortfall, how is it supplemented?

Yes

2.3.15 How are the faculty enabled to prepare computer-aided teaching/learning materials? What are the facilities available in the university for such efforts?

The University is Wi-Fi enabled and is also connected with LAN. Teachers are encouraged by their HOD to prepare notes, lectures, presentations and assignments to make their teaching effective and elicit better output in learning. Many classes are equipped with A-V euipments. Various ICT workshops/orientation programs are organized to educate the faculty members in this regard.

2.3.16 Does the university have a mechanism for the evaluation of teachers by the students / alumni? If yes, how is the evaluation feedback used to improve the quality of the teaching-learning process?

Yes. On the basis of the feedback, Head of the respective faculty counsel the teachers for improvement of their teaching learning skills.

2.4 Teacher Quality

2.4.1 How does the university plan and manage its human resources to meet the changing requirements of the curriculum?

To meet the changing requirements of the curriculum, the University has been very sensitive enough to attract and retain competent and talented faculty, depute them for various FDP's from time to time, encourage to undertake research etc. All these processes have helped a lot in improving the curriculum requirements.

2.4.2 Furnish details of the faculty (Regular Faculty) (Visiting/Adjunct/Part time/Faculty)

2.4.3 Does the university encourage diversity in its faculty recruitment? Provide the following details (Department / School-wise).

Yes, percentage of faculty who are graduates :

Of the same university	5.6%
From the other university within the state	73%
From the universities of other states	21.3%
From abroad universities	0.1%

2.4.4 How does the university ensure that qualified faculty is appointed for new programmes / emerging areas of study (Biotechnology, Bio-informatics, Material Science, Nanotechnology, Comparative Media Studies, Diaspora Studies, Forensic Computing, Educational Leadership, etc.)? How many faculty members were appointed to teach new programmes during the last four years?

The University promotes and makes all efforts and provisions to appoint qualified faculties not only in the emerging areas, but also in other conventional programs. Advertisements for the vacancies are given in the national dailies and are also displayed on SVSU website. The selection criterion is based on the research experience in the relevant field with knowledge of interdisciplinary topics. A thorough

screening of the documents and claims made by the applicant is undertaken by the Selection Committee of the University.
Detailed information on faculty appointed is available in the respective Evaluative Report of the Departments.

2.4.5 How many Emeritus / Adjunct Faculty / Visiting Professors are on the rolls of the university?

All visiting professor and adjunct faculty are provided transport / TA/ DA and remuneration as decided from time to time.

	Emeritus	Adjunct	Visiting
Number	**1**	**3**	**35**

2.4.6 What policies/systems are in place to academically recharge and rejuvenate teachers (*e.g.* providing research grants, study leave, nomination to national/international conferences/seminars, in-service training, organizing national/international conferences etc.)?

- The University encourages teachers to apply for research grants and supports the implementation of such proposals with adequate infrastructure facilities. The teachers are permitted to avail study leave for pursuing research in their field of study.
- Academic leaves are granted to the teachers for presenting papers in conferences / seminars organized by reputed institutions / organization. Financial assistance is also provided to the teachers
- Regular organization of various National/International seminars and conferences.

2.4.7 How many faculty received awards / recognitions for excellence in teaching at the state, national and international level during the last four years?

Teachers of the Universities have achieved the highest esteem and glory for their significant contributions to the society. They are the retired defense officers, doctors, teachers, administrator of high stature. About 189 faculties received such awards for their commendable contribution to the society and nation. **Annexure - 2 – C**

2.4.9 What percentage of the faculty have

- been invited as resource persons in Workshops/Seminars/ Conferences organized by external professional agencies? **17%**
- participated in external Workshops / Seminars / Conferences recognized by national/ international professional bodies? **63%**
- presented papers in Workshops / Seminars / Conferences conducted or recognized by professional agencies? **82%**
- teaching experience in other universities / national institutions and other institutions? **12%**
- industrial engagement? **08%**
- international experience in teaching? **03%**

2.4.10 How often does the university organize academic development programmes (*e.g.*: curriculum development, teaching-learning methods, examination reforms, content / knowledge management, etc.) for its faculty aimed at enriching the teaching-learning process?

- Feedback on curriculum and teaching learning methods is obtained from the faculty teaching various subjects during course coordinator meetings and a brain storming session for

introducing new courses is conducted during departmental meetings, based on market needs. The suggestions are placed before the Board of Studies for consideration and appropriate action.

- Inputs are obtained from all stake holders viz. Alumni, Students, Employers and experts from other academic institutes before introducing a new course by conducting a workshop on syllabus need and requirement.
- Workshop conducted includes experts from leading academic institutes & industry, Alumni and Parents along with subject experts of each domain and Board of Study members in the department.
- Subsequently all relevant suggestions are placed before the Board of Faculty and Academic Council for consideration.

2.4.11 Does the university have a mechanism to encourage

- **Mobility of faculty between universities for teaching?**
- **Faculty exchange programmes with national and international bodies?**

If yes, how have these schemes helped in enriching the quality of the faculty?

Yes, the University permits and encourages faculty to accept invitations for delivering lectures in colleges, universities and research institutes within India and abroad.

The University constantly enters into MOUs to have tie ups at regional/national and international levels for exchange of knowledge and expertise and for the purpose of keeping pace with the latest technological advancements in different fields. The faculty gain experience by undergoing training through exchange programmes with institutions within India and abroad.

2.5 Evaluation Process and Reforms

2.5.1 How does the university ensure that all the stakeholders are aware of the evaluation processes that are operative?

The evaluation process of the University is available on the website.

2.5.2 What are the important examination reforms initiated by the university and to what extent have they been implemented in the university departments and affiliated colleges? Cite a few examples which have positively impacted the examination management system.

Examination Reforms Initiated by the University:

- ERP system has been developed and implemented successfully for facilitating student and staff for smooth functioning of examination system
- Declaration of result within 1 month of finishing the last paper.

- Re-checking process is completed within 10 days of filing the request and showing the answer scripts to the students as on demand. .

2.5.3 What is the average time taken by the University for Declaration of examination results? In case of delay, what measures have been taken to address them? Indicate the mode / media adopted by the University for the Publication of examination results (*e.g.* website, SMS, email, etc.).

The average time taken by the University for Declaration of examination results is one month from the last exam. The result is displayed on the Notice Boards of the respective institution and also on website.

2.5.4 How does the university ensure transparency in the evaluation process? What are the rigorous features introduced by the university to ensure confidentiality?

Confidentiality:

- Examiners are recommended by the BOS of the concerned Departments.
- Coding of answer scripts before evaluation.
- Spot evaluation is done under CCTV surveillance in place ever since inception of the university.
- Packets of question paper are delivered just half an hour before the commencement of examinations to ensure fidelity of conduct of examinations.

Transparency: There is provision to scrutinize the answer book, to see the answer book and to obtain photocopy of answer book in case of any grievance.

- Provision of scrutiny of the answer books is open in case of any grievance from the Examinee. The answer books are shown within 15 days after the receipt of the application along with the prescribed fee.
- In scrutiny there is a provision to check if all the questions are evaluated and their marks correctly posted on the front page. In case of any discrepancy or if any question is not evaluated the same is also rectified.
- The result of scrutiny is declared within two weeks' from the date of receipt of application.

2.5.5 Does the university have an integrated examination platform for the following processes?

- Pre-examination processes – Time table generation, OMR, student list generation, invigilators, squads, attendance sheet, online payment gateway, etc. : **Yes, except OMR**
- Examination process – Examination material management, logistics, etc. : **Yes**

- Post-examination process – Attendance capture, OMR-based exam result, auto processing, generic result processing, certification, etc. : **Yes, except OMR**
  It is proposed to introduce OMR based examination. The process would be mechanical and accordingly teaching methodology would be adopted.

2.5.6 Has the university introduced any reforms in its Ph.D. evaluation process?

The University strictly follows UGC guidelines for conducting Ph.D programs.

2.5.7 Has the university created any provision for including the name of the college in the degree certificate?

Not Applicable

2.5.8 What is the mechanism for redressed of grievances with reference to examinations?

Unsuccessful students get a chance to apply for scrutiny process of answer sheets within one month from the publication of results. The grievances are addressed appropriately within stipulated time period. If the student is not satisfied with the decision of COE, student can write an application to the Vice Chancellor, requesting him to review the decision. Moreover the students are free to see the answer books and can have copy of the answer books by depositing nominal fees.

2.5.9 What efforts have been made by the university to streamline the operations at the Office of the Controller of Examinations? Mention any significant efforts which have improved the process and functioning of the examination division/section.

- Paper setters are recommended by Board of Studies of concerned department.
- To maintain more transparency three sets of Question Papers are prepared, out of which one set of question paper is finalized and released for examination with the approval of Hon'ble Vice Chancellor half an hour before the start of examination.
- Centralized conduction of Examination
- Flying squad officers and are also appointed to prevent copying. COE also visit centre for conduction of fair and free examination.
- Mark sheets are auto generated with QR code.

2.6. Student Performance and Learning Outcomes

2.6.1 Has the university articulated its Graduate Attributes? If so, how does it facilitate and monitor its implementation and outcome?

Yes, the graduate attributes are facilitated and monitored through class room teaching, co-curricular, extra-curricular activities and the

University's unique initiative **'Shiksha, Seva, Sanskar and Rastriyata' (Education, Service, Ethos and Nationality).**

2.6.2 Does the university have clearly stated learning outcomes for its academic programmes? If yes, give details on how the students and staff are made aware of these?

Yes, the learning outcomes of academic programmes are displayed at prominent places in the respective departments for bringing awareness amongst students and staff.

2.6.3 How are the university's teaching, learning and assessment strategies structured to facilitate the achievement of the intended learning outcomes?

The University has constantly been taking initiatives in delivery of curriculum, pedagogy, application of ICT, exposure to live projects for further research, and rigorous assessment of evaluation of teaching learning processes based on feedback from various stakeholders to achieve the intended learning outcomes.

2.6.4 How does the university collect and analyse data on student learning outcomes and use it to overcome the barriers of learning?

Right from the day a student takes admission, he/she is subjected to continuous assessment (both internal and external) supplemented by feedback provided by employers, industry and alumni to overcome his/her barriers to learning to make improvements in future.

2.6.5 What is the new technologies deployed by the university in enhancing student learning and evaluation and how does it seek to meet fresh / future challenges?

The new technologies deployed by the University in enhancing student learning and evaluation include PPT's, Live Case Studies and demonstrations, webinars, recipes videos, smart boards, etc. For evaluation, an in house ERP system has been developed.

CRITERION III

RESEARCH, CONSULTANCY AND EXTENSION

3.1 Promotion of Research

3.1.1 Does the university have a Research Committee to monitor and address issues related to research? If yes, what is its composition? Mention a few recommendations which have been implemented and their impact.

Yes

Its composition is as follows:

- Vice-Chancellor Nominee - Chairman
- Members – Head of the Faculty
- Senior Faculty/Special Invite by the Chairman
- Secretary

Recommendations of the University Research Committee (URC) are as follows:

- Setting up of University Research Advisory Board, Research Committee at faculty level and IPR Cell.
- Recognition by DSIR.
- Starting-up of Intra-mural Research Grant.
- Centralized admission test for Ph.D/M.Phil program.
- Implementation of Quarterly Research Plan for faculty members.
- Organization of at least one National/International Seminar/ Conference/Workshop annually at each institute.
- Conduction of Viva-Voce within 1 year of the submission of thesis.

3.1.2 What is the policy of the university to promote research in its affiliated / constituent colleges?

The faculty members of the constituent colleges are extended a lot of facilities to undertake research. This includes academic leave, financial assistance and other incentives.

3.1.3 What are the proactive mechanisms adopted by the university to facilitate the smooth implementation of research schemes/projects?

For smooth implementation of research scheme/projects, the University has been liberal by extending full autonomy to the principal investigator, timely release of the funds, arranging extended infrastructural facilities and entering into MOU's with the industry.

3.1.4 How is interdisciplinary research promoted?

Inter-disciplinary research amongst different departments is the key priority of the University. University gives full independence to their faculty members for undertaking interdisciplinary research projects and all the research facility available in University Faculties is open for all faculty

members and students. Faculty members also have the freedom to undertake collaborative projects within departments and with faculties of

Sl. NO.	Name of vender	Subject

other constituent college of the university. The University had also constituted University Research Committee and Research Advisory Board for promoting Interdisciplinary research. A number of faculty members from Medical, Dental, Nursing, Engineering, Yoga, etc have been engaged in undertaking such research.

University has a lot of collaboration with National Institutes & Industries including AIIMS, New Delhi, National Institute of Nutrition, Centre for Public Health Kinetics, New Delhi, Alkem, Sunpharma, Croissance Clinical Research, IBM and International Institutes and Industries including John Hopkins University, USA. Also a large number of MOU's promoting collaborative research has been signed. The prominent among which are with John Hopkins University, USA, Cincinnati University, USA, Providence University-Taiwan, China Medical University, Taiwan, University of Congo. The above collaborations and MOUs are for research activities. In addition, the University has also signed MOUs with various Institutions and Industry for the purpose of students exchange programmes. Few of them are listed below:

1.	Guitar Monk, Ghaziabad with SIFF	Training collaborative Partner for Bachelor of Performance Arts in Guitar (BPA-Guitar)
2.	University Simon Kimbangu DR Cargo, Africa	• Exchange of students and /or Interns • Exchange of Faculty and /or Staff • Joint research activities and publications • Participation in seminars and academic meetings • Exchange of academic materials and other information • Special short term academic programme.
3.	Chiefly Business School, Australia with SIMC	To pursue collaborative International educational programmes for the common benefits of students and faculty members of following programmes: • MBA • Graduate Diploma of Management • Graduate Certificate of Management • MBA (Technology Management) • Graduate Diploma of Management (Technology Mgt.) • Graduate Certificate in Management (Technology Mgt.) • Master of Technology in Project Management • Graduate Certificate in Project Management.
4.	University of Florida, USA with SDC	• To enhance the academic interchange between the two institutions • Recognizing the importance of mutual collaboration and to contributions to society made by institutions of higher education • To promote exchange between the faculty and students as well as the academic and research information.
5.	Beret Media (P) Ltd., Meerut with SIJMC	• To learn functioning of various equipments and sections of TV Channel • Internship of students.

3.1.5 Give details of Workshops / Training programmes / Sensitization programmes conducted by the university to promote a research culture on campus.

3.2. Resource Mobilization for Research

3.2.1 What are the financial provisions made in the university budget for supporting students' research projects?

All students working on projects are given grants as per the

recommendations by the guide.

3.2.2 Has the university taken any special efforts to encourage its faculty to file for patents? If so, how many have been registered and accepted?

Yes, the University has motivational approach to encourage the faculty members to file a patent after completion of their research work. The university has established an IPR cell to assist for patent filing. In addition, the University has established Technology Innovation Centre in the Faculty of Engineering and Technology. The centre has recently invented solar power driven auto rickshaw, air cooler and bi cycle. Recently a workshop on IPR was conducted.

3.2.3 Provide the following details of ongoing research projects of faculty:

	Year wise	Number	Name of the project	Name of the funding agency	Total grant received
A. University awarded projects					
Minor projects					
Major projects					
B. Other agencies - national and international (specify)					
Minor projects					
Major projects	**2014-15**	**01**	Harvest Plus Challenge Program	Bill and Melinda Gates Foundation, USA	12,027,178.00
	2015-16	**03**	Impact of chlorhexidine cord cleansing for prevention of neonatal mortality in Pemba, Tanzania		14,118,127.00
			Harvest Plus Challenge Program	Bill and Melinda Gates Foundation, USA	11,007,743.00

			Efficacy of High Zinc-Biofortified Wheat Consumption in Improvement of Micronutrient Status and Prevention of Morbidity among Pre-School Children (aged 4-6 years) and Women of Child Bearing Age-A double Masked, Randomized Controlled Trial.	THE AMANHI STUDY	13,059,191.00

3.2.4. Does the university have any projects sponsored by the industry / corporate houses? If yes, give details such as the name of the project, funding agency and grants received.

Name of Department	Funding agency	Project title	Grants received
Dept of Conservative Dentistry & Endodontics	Dentsply	Comparative evaluation of dynamic torsional resistance and cyclic fatigue of nickel titanium instruments manufactured with different methods.	Rotary files worth Rs 1 lakh
Dept. of Conservative Dentistry & Endodontics	Colgate	Laboratory composition of machine assisted irrigate agition systems for apical extrusion of debris and irrignat in mechnically instrumented root canals.	Rs.10,000/-

3.2.5 How many departments of the university have been recognized for their research activities by national / international agencies (UGC-SAP, CAS; Department with Potential for Excellence; DST-FIST; DBT, ICSSR, ICHR, ICPR, etc.) and what is the quantum of assistance received? Mention any two significant outcomes or breakthroughs achieved by this recognition.

We have applied for recognition but however most of the Govt. agencies demand NAAC accreditation as a pre-condition to recognize departments of self financing Universities.

3.2.6 List details of

a. Research projects completed and grants received during the last four years (funded by National/International agencies).

b. Inter-institutional collaborative projects and grants received

i) All India collaboration

ii) International

Name of the Project (2015-16)	**Amount (in Rs.)**

3.3 Infrastructure for Research

3.3.1 What efforts have been made by the university to improve its infrastructure requirements to facilitate research? What strategies have been evolved to meet the needs of researchers in emerging disciplines?

All PG Labs are equipped with modern sophisticated equipments. Besides, the CRS takes care of the infrastructural requirements for medical and allied sciences.

3.3.2 Does the university have an Information Resource Centre to cater to the needs of researchers? If yes, provide details of the facility.

Yes, the information resource centre located in the central library of the University provides on line data through EBESCO host, DELLNET, British Library for more than 9189 journals.

3.3.3 Does the university have a University Science Instrumentation Centre (USIC)? If yes, have the facilities been made available to research scholars? What is the funding allotted to USIC?

No.

3.3.4 Does the university provide residential facilities (with computer and internet facilities) for research scholars, post-doctoral fellows, research associates, summer fellows of various academies and visiting scientists (national/international)?

Yes.

3.3.5 Does the university have a specialized research centre/ workstation on-campus and off-campus to address the special challenges of research programmes?

Yes.

The University has National Accreditation Board for Testing and Calibration Laboratories (NABL) accredited Central Lab in the Medical College and Hospital, Microbiology Lab besides CRS. Individual departments have their own research labs.

Tuberculosis Culture Lab recognized by DOTS, RNTCP certified laboratory.

Microbiology Lab for food testing.

3.3.6 Does the university have centers of national and international recognition/repute? Give a brief description of how these facilities are made use of by researchers from other laboratories.

Yes, the University has centers of national recognition. The description of such centers is as-

5.1.15 Does the university have a registered Alumni Association? If yes, what are its activities and contributions to the development of the university?

Yes.

The Alumni Association at SVSU organizes Alumni meets every year, the objective of which is to provide a link between the past and the present, also the senior dignitaries encourage the graduates to work responsibly for the society and to never compromise on ethics and moral values. Social links offer quick and easy access to information essential to foster Institute-alumni relationships and enable bonding with the batch-mates. It also provides a platform for the Alumni to share their rich experiences with the current students so as to provide them a window to the outside world of opportunities in their respective fields. Feedback from the alumni is gathered during alumni meets conducted by the respective Faculty/Institutions and their recommendations are implemented accordingly.

5.1.16 Does the university have a student grievance redressal cell? Give details of the nature of grievances reported. How were they redressed?

Yes.

The student Grievance redressal cell is bi-layered as this cell operates at the University level and at the individual faculty level also. At the faculty level, student grievances are addressed by the respective Head of the Institutions and the University grievance cell is headed by the Vice-Chancellor. Majority of the grievances are pertaining to attendance, examinations, results and hostel accommodation. Some grievances are also related to teaching and learning processes of the Institute. The

grievances are reported to the Head of the Institution who at his/her level tries to solve the same. However, if the case is difficult, it is forwarded to the University grievance cell which is the highest deciding authority in this regard. The University Grievance Cell email id is grievance@subharti.org which is also mentioned on the University website.

Further, Grievance boxes are placed in easily approachable places inside the campus so that the students can use it without fear or hesitation. The students are given freedom to write about their grievances and place it in the box. Once in a month, the grievances are read and necessary actions are taken to relieve the students of their problems. Personal grievances, if any, are handled with caring and kindhearted approach even by individual faculty members.

5.1.17 Does the university promote a gender-sensitive environment by (i) conducting gender related programmes (ii) establishing a cell and mechanism to deal with issues related to sexual harassment? Give details.

Yes.

SVSU is sensitive towards gender sensitivity and works towards gender equality and women empowerment in a multipronged approach by awareness campaigns, capacity building, changing mindsets and perceptions of men and youth, etc. The University has constituted various cells to promote gender sensitivity in the campus. Gender issues are addressed by Women Empowerment Cell, Committee against Sexual Harassment of Women, University Disciplinary Committee and Anti-ragging Committee etc. **No case has been reported in last four years.**

5.1.18 Is there an anti-ragging committee? How many instances, if any, have been reported during the last four years and what action has been taken in these cases?

Yes.

To make the campus ragging free; a bi-layer mechanism is in place at the University level and the faculty level. Anti-ragging committee is active and vigilant throughout the year to eliminate the menace of ragging in the campus and due to its sincere efforts the ragging incidents have reduced to zero in recent years.

5.1.19 How does the university elicit the cooperation of all its stakeholders to ensure the overall development of its students?

The University ensures that all stakeholders participate in the overall development. Feedback from the stakeholders is regularly collected and

after proper analysis they are implemented to bring positive transformation in the comprehensive development of student's career.

The views and suggestions of various stakeholders like experienced industrial executives, well placed alumni and eminent scientists that emanate during interactions are considered for the development of students. Stakeholders are also included in the Board of Studies for contribution of vital inputs in designing the curriculum.

5.1.20 How does the university ensure the participation of women students in intra- and inter-institutional sports competitions and cultural activities? Provide details of sports and cultural activities where such efforts were made.

The University does not believe in gender discrimination but motivates women to participate in the intra-institutional and inter-institutional sports competitions and cultural activities. The efforts made by the University to ensure the participation of women in sports activities are given below:

The University Cultural committee has two nominated members from every Faculty/Institution to look after the events and to encourage students to participate in cultural events of the University and also represent the University outside.

Participation of students in extracurricular activities:-

- Every year a cultural program for a period of week is dedicated to sports and cultural events and also organizes many intercollegiate competitions in music, dance and theatre.
- University encourages the students to participate in interuniversity festival such as Zonal and National Youth festival organized by Association of Indian University, New Delhi.
- National Days are celebrated with great vigour.

Additional Academics:

- Certificate and Diploma Courses in Music (Classical singing, Sitar, Tabla) and Kathak dance are open for all students of University if a student is studying in any degree course then he/she can join any certificate and Diploma course of music and dance as additional academics.
- Hobby classes are also open for all students in which any student of university can join music and dance classes on every Saturday.

Special Requirements:

University provides following requirements of students:

- Costume and jewellery and any other requirement for stage performance.
- One time full diet for students during rehearsal days before performance.
- Whole day diet for every participating student during events days of any cultural festival.
- University provides conveyance to students for participating in cultural festivals with two of the faculty member of university.

5.3.2 Give details of the achievements of students in co-curricular, extracurricular and cultural activities at different levels: University /State / Zonal / National / International, etc. during the last four years.
Students of SVSU have participated in numerous activities at different levels, few of them are listed in the table.

5.3.3 Does the university conduct special drives/ campaigns for students to promote heritage consciousness?

Yes.

We do conduct various drives and campaigns for students to promote heritage consciousness. Few of them are listed below:

• All buildings and lanes in Subhartipuram are named after the martyrs of our country.

• Quarterly visit to Ghat Village which is adopted by SVSU.

• Green Plantation Drive is a regular drive. Students actively volunteer to make this event a grand success.

• Students participate with great enthusiasm on all National Events including celebration of National and International days, Subharti Days are celebrated in and outside the Campus.

• Important festivals pertaining to all religious groups are jointly celebrated.

• Various programmes and lectures are organized by the University to promote the heritage consciousness among students, non-teaching staff as well as among the teachers.

By this approach, the University is making an effort to make our students 'Good Citizens'.

5.3.4 How does the university involve and encourage its students to publish materials like catalogues, wall magazines, college magazine, and other material? List the major publications/ materials brought out by the students during the last four academic sessions.

The University encourages the students to pen their thoughts and achievements in words. They are given the opportunity to write articles, publish the paper in the publications which are published periodically.

This instills in them not only the desire to succeed but to reach the top. Winners are applauded and participants in different activities are encouraged at every stage. The students also design the invitations for their departmental programmes. Students are encouraged to present their research work as a poster for which they design themselves. In addition to this the students also design cutouts and decorative pieces for their technical and cultural fests.

Students from various departments are elected and are given representation in various committees like Anti-ragging Committee, Honourable Court of SVSU, Hostel Committee, Cultural Committee, Sports Committee, class representation etc.

CRITERION VI

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 Institutional Vision and Leadership

6.1.1 State the vision and the mission of the University.

The Vision

To be a National Player in Technical, Professional, and Higher learning with emphasis on Service and Sanskaar.

Mission

To develop the framework for effectively conducting various educational and research programmes of the highest standards so as to produce confident, self-reliant, and responsible youth for the society and eminent professionals for government, industry and business.

6.1.2 Does the mission statement define the institution's distinctive characteristics in terms of addressing the needs of the society, the students it seeks to serve, the institution's tradition and value orientations, its vision for the future, etc.?

Yes.

The mission comprehends distinct characteristics of the University in terms of societal needs, the student beneficiaries including other stakeholders as well as values and vision of the Institution. The University stresses on moral and ethical values especially imparted through its Sanskriti Department.

It has been extensively organizing outreach programs like medical camps, dental camps, literacy awareness programs, legal aid programs and Swacch Bharat drives, etc. Besides, it is as is truly reflected from its nomenclature itself.

6.1.3 How is the leadership involved?

- **In ensuring the organization's management system development, implementation and continuous improvement?**
- **In interacting with its stakeholders?**
- **In reinforcing a culture of excellence?**
- **In identifying organizational needs and striving to fulfill them?**

(a) The leadership is continuously involved in formulation, implementation and monitoring of policies having a deep impact in improving academic excellence at par with its peers.

(b) The leadership keeps constant liaisoning with stakeholders (parents, alumni, employers and industry representatives and make use of their feedback right from formulation of initial policies to its review from time to time.

(c) The University leadership has always been striving to nurture excellence both in academic and administrative spheres. Respective faculties have been accorded academic, administrative and financial

flexibility in planning and implementing need-based programmes to withstand challenges of market economics.

(d) The leadership has been bringing structural and functional differentiation in the organizational hierarchy to keep a lean and thin transparent administration to meet the expectations of target beneficiaries.

6.1.4 Were any of the top leadership positions of the University vacant for more than a year? If so, state the reasons

No.

6.1.5 Does the University ensure that all positions in its various statutory bodies are filled and meetings conducted regularly?

Yes.

6.1.6 Does the University promote a culture of participative management? If yes, indicate the levels of participative management.

Yes.

The Board of Trustees has delegated commensurate authority to various functional and administrative heads on the principles of Top-down and Bottom-up approach. The University encourages culture of participative management.

6.1.7 Give details of the academic and administrative leadership provided by the University to its affiliated colleges and the support and encouragement given to them to become autonomous.

Not applicable

6.1.8 Have any provisions been incorporated/introduced in the University Act and Statutes to provide for conferment of degrees by autonomous colleges?

Not applicable

6.1.9 How does the University groom leadership at various levels? Give details.

The University organizes faculty development and staff development programmes from time to time. At the departmental level, the HODs and Head of the Faculty/Institution, faculty at various levels for conducting academic events like alumni meet, seminars, workshops and those relating to institutional social responsibility like social activities, adoption of village for development and making future plans for the departments. Faculty at junior levels is given responsibility in organizing various departmental activities and examinations so that they acquire necessary leadership skills. Leadership is encouraged even among the students who are given different responsibilities in the various co-curricular and extracurricular activities like Projects, Competitions, Discussions, Sports events, cultural events, etc. This has greatly helped in building team spirit in the various academic and administrative units of the University.

6.1.10 Has the University evolved a knowledge management strategy? If yes, give details.

Yes.

The University has set up committees with diverse composition for evolving a knowledge management strategy. The strategy focuses on continuous improvement in teaching and learning and efficient administration with increased use of computers, knowledge repositories, intranets, and computer-supported cooperative work.

6.1.11 How are the following values reflected in the functioning of the University?

- **Contributing to national development**

  The University has been contributing to the national development by producing qualified human talent towards nation building, for instance, during the last four years 300 medical postgraduates, 400 undergraduate medical professionals and 400 undergraduate dental professionals, 120 dental postgraduates, and 1200 engineers. 3000 degree holders have made noticeable contributions to the research quotients of India.

- **Fostering global competencies among students**

  The University has been fostering global competencies by developing curriculum according to their needs, signing a number of MOUs with reputed National/International agencies whereby exchange of the faculty and the students takes place on regular basis.

- **Inculcating a sound value system among students**

  The University has been promoting and propagating value-based education amongst the students. Various activities on national development are organized round the year by the Sanskriti Department. Each faculty, buildings, roads and play grounds of the University are named after great patriots of India. Apart from rigorous academic activities, the University provides appropriate platform to the students to inculcate value education through various social and community-oriented programme as well as sustainability in national interest.

6.2 Strategy Development and Deployment

6.2.1 Does the University have a perspective plan for development? If yes, what aspects are considered in the development of policies and strategies?

- **Teaching and Learning**

  The University proposes to launch skill-based and innovative courses which are currently in demand by the industry.

Research and development

The University plans to further strengthen the existing Research

and Development Cell by earmarking more funds, arranging consultancies and working for patents.

- **Community engagement:**
  The University has planned various activities to be carried out for community development. Thus, it organizes programs such as legal aid camps, rural journalism to educate and create awareness among the rural masses, medical and dental services to the primary & urban health care as well school & village camps at Meerut, Muzaffarnagar and Baghpat districts. Blood Donation Camps & Health Days are also organized to strengthen the Community development.
- **Human resource planning and development**
  To ensure capacity building, the University proposes to induct talented faculty from reputed institutions in India as well as hiring experienced faculty from abroad.
- **Industry interaction/Corporate intercourse:**
  The University visualizes a strategy for larger industry interaction through corporate meets, involvement of industry professionals in various academic bodies, pre-placement seminars, live projects and consultancy work from industry.
- **Internationalization:**
  For improving the quality of teaching and research it is planned to have more collaborations with reputed international organizations. To make the programmes internationally acceptable, the curriculum is proposed to be revamped as per the exigencies of time.

6.2.2 Describe the University's internal organizational structure and decision making processes and their effectiveness.

`

6.2.3 Does the University have a formal policy to ensure quality? How is it designed, driven, deployed and reviewed?

Yes.

The University strives continuously to improve the quality of education to nurture the talent of our students to enable them to embark upon a successful career. Our team endeavors to achieve this objective through a proper blend of high conceptual and practical skills supported by excellent infrastructure, teaching methodology and

commitment to Quality Management.

The quality indicators at the University are:

- The lifelong learning through curriculum restructuring and continuous professional development
- Comprehensive assessment and evaluation system
- The interdisciplinary approaches to education with innovative ideas.
- Attract faculty who bring distinction and stature to the university.
- Use of e-learning pedagogy and technology.

6.2.4 Does the University encourage its academic Departments to function independently and autonomously and how does it ensure accountability?

The academic departments of the University have been extended adequate delegation of powers in terms of academic curriculum, administrative and financial powers to perform their duties and responsibilities effectively and efficiently. For instance, Heads of individual Faculty/Institution can procure those books which are not available in the Central Library. Sufficient imprest amount is available with each Head of the Institution to incur any contingent expenditure.

6.2.5 During the last four years, have there been any instances of court cases filed by and against the institute? What were the critical issues and verdicts of the courts on these issues?

Yes, in the following two instances MCI filed

6.2.6 How does the University ensure that grievances / complaints are promptly attended to and resolved effectively? Is there a mechanism to analyze the nature of grievances for promoting better stakeholder-relationship?

The University has a well designed Grievance/Complaint mechanism. For instance, University Grievance Cell, Students Welfare Committee, Anti-ragging Committee, etc. takes care in resolving the grievances for promoting stakeholders relationships. If at all the grievances cannot be resolved internally, the cases are referred to Ombudsman of the University whose decision are final and binding. Besides Suggestion Boxes have been installed at all prominent places and stakeholders can put in their grievances on the University Email id:Grievances@subharti.org.

6.2.7 Does the University have a mechanism for analyzing student feedback on institutional performance? If yes, what was the institutional response?

Yes.

The student feedback on institutional performance is reviewed from time to time by the policy making bodies of the University.

6.2.8 Does the University conduct performance audit of the various Departments?

Yes.

6.2.9 What mechanisms have been evolved by the University to identify the developmental needs of its affiliated institutions?

No.

6.2.10 Does the University have a vibrant College Development Council (CDC)/Board of College and University Development (BCUD)? If yes, detail its structure, functions and achievements.

No.

6.3 Faculty Empowerment Strategies

6.3.1 What efforts have been made to enhance the professional development of teaching and non-teaching staff?

The professional development of the teaching faculty is ensured by deputing them for attending specialized professional courses, extending sabbatical leave for higher research, encouraging consultancy, providing incentives for publishing articles in national/international repute etc. As regards non-teaching staff, in-house skill development programmes, upward promotions in the ladder and incentives for best performance are provided.

6.3.2 What is the outcome of the review of various appraisal methods used by the University? List the important decisions.

A review of appraisal technique like Self-appraisal, Annual Confidential Report and Special Report sought from the Head of the concerned faculty from time to time which provides enough ground for bringing more effectiveness and efficiency both for the faculty and the staff. The suggestions provided include training for upgradation of non-teaching staff, prompt promotions, incentives (monetary and non-monetary) for excellent performance, etc. Similarly in case of teaching faculty, steps are required for arranging FDPs, deputing them in exchange with the industry, sponsoring for National/International conferences, etc. In order to crystallize these suggestions, the University through its policy making bodies has been taking timely decisions such as:

- To sanction special incentives/rewards to staff with exemplary performance.
- To nominate faculty to training on specialized topics wherever some gap in performance is noticed.
- To assign senior faculty to mentor the junior faculty and guide them in both academic and administrative functions.
- To enthuse members of the staff to rise to the expectations of the students and stakeholders.
- To encourage the staff to familiarize with modern technical support systems.

6.3.3 What are the welfare schemes available for teaching and non- teaching staff? What percentage of staff have benefitted from these schemes in the last four years? Give details.

The welfare schemes available for teaching and nonteaching staff in the University are as follows:

- Loan facility extended to the employees.

- Facility of day-care center/ crèche within the campus for working women, to take care of their children
- Provision of 3-months maternity leave to female employees with full salary.
- Suitable concessions in tuition fees are allowed to the wards of employees.
- Financial assistance to the Teachers of the University for attending the National/International Conferences/Seminars
- Subsidized transportation to off-campus employees
- Uniforms to class-IV non -teaching staff
- Excellent Internet/Wi-Fi facility to all the Staff
- Other facilities such as University Residences, Timely promotions, Salary through Bank, Indoor/Outdoor Sports Facility, CUG mobiles etc.

A large percentage of employees have been benefitted from welfare measures initiated by the University.

6.3.4 What are the measures taken by the University for attracting and retaining eminent faculty?

In order to attract and retain eminent faculty, the University extends a number of facilities both monetary and non-monetary e.g. Loan facility, Fee concession to the wards of staff members, subsidized medical and transport facility, financial assistance for attending National/International conferences, etc.

6.3.5 Has the University conducted a gender audit during the last four years? If yes, mention a few salient findings.

The overall scenario in the University has a distinct feature that females outnumber the males, that is why the need for conducting a regular gender audit has never arisen.

6.3.6 Does the University conduct any gender sensitization programmes for its faculty?

In view of the answer given in 6.3.5 need for conducting gender sensitization programmes has never been felt.

6.3.7 What is the impact of the University's Academic Staff College Programmes in enhancing the competencies of the University faculty?

The University is in the process of setting-up Academic Staff College.

6.4 Financial Management and Resource Mobilization

6.4.1 What is the institutional mechanism available to monitor the effective and efficient use of financial resources?

The Executive Council of the University is the highest policy making body for financial management. Every year the budget as prepared by the Finance Department and processed by Finance Committee is approved by the Executive Council. The funds are

optimally utilized by ensuring quarterly progress of the allocated funds vis-a-vis the expenditure incurred.

6.4.2 Does the University have a mechanism for internal and external audit? Give details.

The University maintains both internal and external audit separately. There are two Chartered Accountants who independently are engaged for external and internal audit respectively.

6.4.3 Are the institution's accounts audited regularly? Have there been any major audit objections, if so, how were they addressed?

The accounts are audited regularly. There has not been any major audit objection.

6.4.4 Provide the audited income and expenditure statement of academic and administrative activities of the last four years.

See Annexure - 22

6.4.5 Narrate the efforts taken by the University for Resource mobilization.

The University has been running self-financing programmes and student fee is the major source of income. Besides, the University has been generating funds from Dental Hospital, Medical Hospital and Physiotherapy OPD. A part of the funds is also being generated from rental income for the shopping complex. In addition, a three star hotel is already under construction and in course of time there is a possibility that this would also generate fund to the kitty of the University.

6.4.6 Is there any provision for the University to create a corpus fund? If yes, give details.

The permanent endowment fund coupled with development fund as per the provision of the Swami Vivekanand Subharti University at Act 2008 are maintained by the University. The permanent endowment fund is a kin to corpus fund.

The accumulated balance of these two fund as on 31-03-2015 is Rupees- 13,45,24,726

6.5 Internal Quality Assurance System

6.5.1 Does the University conduct an academic audit of its Departments? If yes, give details.

The University has recently initiated the process of conducting Academic Audit of its departments.

6.5.2 Based on the recommendations of the academic audit, what specific measures have been taken by the University to improve teaching, learning and evaluation?

See answer 6.5.1.

6.5.3 Is there a central body within the University to continuously review the teaching learning process? Give details of its structure, methodologies of operations and outcome?

The Academic Council consisting of all the Heads of the respective

Faculty/Institutions of the University and experts from outside is the principle academic body. The curriculum as proposed by BOS and routed through the faculty is placed for final approval before the Academic Council. The Academic Council ensures that curriculum is regularly reviewed and updated.

6.5.4 How has IQAC contributed to institutionalizing quality assurance strategies and processes?

The IQAC setup in September, 2010 has been endeavoring to institutionalize quality assurance, strategies and processes like setting-up of IQAC Cell under each faculty, processes for preparation of self-study report, display of vision and mission of the University at prominent places and instill the spirit of quality education through continuous research by the faculty.

6.5.5 How many decisions of the IQAC have been placed before the statutory authorities of the University for Implementation?

23 decisions were placed before the University bodies for implementation.

6.5.6 Does the IQAC have external members on its committees? If so, mention any significant contribution made by such members.

Adequate representation to alumni, civil society and industry has been given in the composition of IQAC. The IQAC has been immensely benefited from the deliberations of these external members in designing and implementing quality initiatives. For instance, suggestions from industry have helped in devising strategies for introducing soft skills; employers and industry have been helping in reviewing the curriculum; and suggestions from civil society members have led to introduction of moral values as a part of the curriculum.

6.5.7 Has the IQAC conducted any study on the incremental academic growth of students from disadvantaged sections of society?

No.

6.5.8 What policies are in place for the periodic review of administrative and academic Departments, subject areas, research centers, etc.?

Periodic Review of Academic Departments

The periodic review of academic department is carried out for new programmes offered, industry relevance of domain-specific specialization, number of inter-disciplinary programmes, etc.

Periodic Review of Administrative Departments

The University periodically reviews the functioning of different administrative departments which provide services like security, hostel, repair and maintenance. They are regularly being reviewed and remedial action is taken wherever deficiency or inefficiency is noticed.

Periodic Review of Subject Areas

Subject areas are periodically reviewed by the different departments. While obsolete subjects are gradually phased out, the emerging areas are introduced frequently.

Periodic Review of the Research Centres

The University regularly reviews its research and innovation activities to keep exploring in new and emerging areas.

CRITERIA - VII

INNOVATIONS AND BEST PRACTICES

7.1 Environment Consciousness

7.1.1 Does the university conduct a Green Audit of its campus?

The campus green audit in technical sense or as required under ISO 4001 is now carried out in the campus. However, environmental audit in terms of air, water and waste is certainly carried out to identify opportunities to reduce cost, to improve processes, to improve the materials efficiency as well as to comply with the regulatory requirements. In the light of the above, the University has an eco-friendly campus by addressing issues relating to carbon neutrality, energy conservation, waste management etc. Majority of transport vehicles plying on campus run on CNG. Rain harvesting is in usage; solar plants are fitted on roof tops & ordinary lights are being replaced by LED etc.

7.1.2 What are the initiatives taken by the university to make the campus eco-friendly?

Energy conservation

LED's and CFL's have been started as a measure of energy conservation. Optimum use of air conditioning is ensured by keeping it off once a week.

Use of renewable energy

All the hostel buildings are equipped with solar panels.

Water harvesting

Rain water harvesting pumps have been set up in the whole campus. The water so harvested is used by the horticulture department and in various nurseries of the University.

Check dam construction - Not Applicable

Efforts for Carbon neutrality

The campus is a no smoking zone. It is a healthy practice that motorized vehicle does not ply on every Wednesday in the campus. In lieu, battery operated cars are made available. Pollution level of the campus is checked twice in a year.

Plantation

Plantation drive is an ongoing process.

Hazardous waste management

Waste management is the keep priority in the campus. Medical and dental waste disposal has been outsourced. Biomedical waste management plant with an incinerator exists on campus- the biggest plant in western UP. E-waste is disposed off through vendors. Color-coded dustbins have been installed at prominent places.

7.2 Innovations

7.2.1 Give details of innovations introduced during the last four years which have created a positive impact on the functioning of the university.

- Technology Innovation Centre in the Faculty of Engineering and Technology has invented solar power driven auto rickshaw, air-cooler and bi-cycle.
- Wi-Fi connectivity and access to internet in all the academic buildings and hostels.
- ERP System as a part of Examination reforms.
- Partnership with industry players in diverse areas.
- Application of simulation exercises, showing motivational movies and heavy reliance on PPT's as a part of teaching methodology.
- Extension activity as a part of social outreach programme.

7.3.1 Give details of any two best practices which have contributed to better academic and administrative functioning of the university.

A. First Best Practice

1. Title of the Practices:

"Sanskar-The Subharti Tradition"

2. Objectives of the Practice

Jose Rizal has very aptly stated that "He who does not know how to look back at where we came from will never get to his destination". The University believes in this dictum and following that, the fourth pillar of our motto is Nationalism with the other three being Education, Service & Culture. Our national heroes played a pivotal role by sacrificing their lives in achieving country's freedom. Similarly several social reformers borne the wrath of the society but undeterred with anything, kept their crusade to curb the evils in the society. With a view to awaken the present generation about such forgotten heroes, the University has dedicated itself to establish a Best Practice to honor them.

3. The Context

We keep the gratitude we experience with us all year and give thanks to the brave men and women who answered our country's call when needed. Even if one individual gets motivated by learning about the times and motivations from the by gone years, our purpose of instilling nationalism in the youth of our country is served. The uniqueness in Subharti

tradition has been that of motivation of the youth; and one motivated youth is worth a million people who strive just for their own existence.

4. The Practice

The University has dedicated all the colleges, hostels, buildings & roads in the name of one or the other martyr or social reformer. These great men have been picked from across the country irrespective of their caste, creed, region or religion. A brief history about their life and sacrifices has also been prominently displayed in the respective colleges whom they are named after. The birth anniversaries or the martyrdom day of these heroes are celebrated throughout the year. Every year on, by re-affirming that, we will always remember the sacrifice of our undisputed national heroes.

5. Evidence of Success

The lack of awareness among the youth about the country's freedom struggle has been an issue of concern for all of us and all-round efforts are being made to inculcate the knowledge of history among the masses. As the youth is the leader of tomorrow we can mould them during these tender formative years and instill in them that had it not been for the freedom struggle waged by our patriotic forefathers, we would not be living in a free and secular country. After becoming aware about the life and times of our national heroes we have noticed a sea change in our students who are a highly motivated lot and routinely follow the traditions of sanskaar**.** The principles of truth, patience, perseverance and determination that marked India’s struggle for independence were being lost on the younger generation but at Subharti we can proudly say that there has been a U turn and students feel it their moral responsibility and obligation to follow these principles in letter and spirit. We can see many of the motivated students from our University who are actively involved in social work and are paving their path towards villages as that is the place where real India is.

6. Problems Encountered and Resources Required

The freedom fighters, as the name indicates, are the revolutionaries that are fighting for a cause so as to achieve liberation from a controlling authority. However the violent means of achieving this are never encouraged in the University which were adopted during those times by some of the

revolutionaries. We practice and preach the principle of "Ahimsa Paramo Dharma" and so do our students follow the same. The virtue of Truth, Patience, Perseverance and Determination in the present era is hard to come by and it all depends upon the upbringing of the individual. At Subharti we welcome all irrespective of their caste, creed and religion. It may happen that a miscreant may escape the watchful eyes of the authorities and may prove to be a rotten apple in the lot. So as to prevent such things from happening, still more thorough screening method should be employed to look for the lack of these virtues in an individual.

7. **Notes:**

The lilting notes of the patriotic songs during the celebrations of either the birth anniversaries or the martyrdom day of our national heroes touch the soul of every patriotic Indian and inspire many to plunge into the national movement. Same holds true for every true Subhartian. The way our nation is at crossroads today, it is the need of the hour that we remember our indomitable freedom fighters, drawn from all parts India, who underwent superhuman sacrifices and shed their precious blood so that we, belonging to a different generation, live a better life. The debt of gratitude that we owe to them cannot be repaid. This is a small effort on part of Subharti University to make a befitting tribute to our national heroes by naming the various establishments after various true daughters and sons of India. If this practice is followed across the nation, our history shall never be forgotten and the martyrs of yesteryears shall never continue to exist in oblivion.

B. Second Best Practice:

1. **Title of the Practice**

From Known to Unknown.

2. **Objectives of the Practice**

"*Harmonious development of the head, hand and heart is the mark of a model man*." **To impart Knowledge in such a manner that the facilitator comprehends a learner's** ability to understand the meaning of what has been taught and tries to simplify the deliberations while taking a student from his journey of known to unknown. Effort is to make our students to shed inhibitions and outreach to the society thus making difference at the grass root

level.

3. **The Context**

Following the vedic system of teaching is imprudent in the modern era yet we aim for the sky with our roots firmly set on the ground. Gone are the days when chalk and blackboard were the only methodology of teaching and learning. The lectures are planned in such a way that they combine domains so that topics covered and learning are more holistic and multidimensional. The University stresses upon the need of developing cognitive, affective and psychomotor domains while sustaining and enhancing healthy teaching and learning quality.

4. **The Practice**

Knowledge is imparted by using multimedia methods and simultaneously the facilitator comprehends a learner's ability to understand the meaning of what has been taught and tries to simplify the deliberations while taking a student from his journey of known to unknown. The diversity while planning the lectures helps to create more well-rounded learning experiences and meets a number of learning styles and learning modalities, thus aiding trouble-free recall.

A buzz method of teaching is followed where the students turn to their neighbors for a quick buzz. The Buzz method of learning showcases the effectiveness of the lectures by analyzing the response of the students to the lectures delivered, thr**ough the** participation of the learner in the discussions which are held periodically. This allows almost everyone to express an opinion. While they are buzzing, participants are able to exchange ideas and draw on their wide collective experience. It provides a good opportunity for learners to reflect on the content of a lecture. A buzz session generates many ideas, comments and opinion. It encourages participants to reflect on what they have learnt and how they might apply it in their work. We value the learner's ability to see the worth of something and express it. Participation in these group discussions does provide an equal opportunity to all the stake holders, the ability to internalize values and at the same time let them control the personal behavior.

While developing the psychomotor domain, there is a clear educational intention for growth. The lectures are planned in such a way that they combine domains so that topics covered and learning are more holistic and multidimensional. Some courses run by the University life Medical College, Dentistry, Nursing, Fine arts etc. require different approach where stress is laid more on the development of psychomotor domain while maintaining a balance between the cognitive and affective domain. We achieve this is by overall development of skills, behavioral endurance, agility, dexterity, effective decision making in an individual

5. **Evidence of Success**

The bottom line of following any healthy practice is that the success of the project will be measured. The stakeholders will decide whether the healthy practice was well implemented and how well was it managed. At Subharti we can proudly say that our students are going places with all that they have acquired during their stay at the University. You can find our alumni as prominent faces in many fields like medical and dental, television, hotel industry, fine arts, education, sports and many more. Our alumni have already made names for themselves in public oration, and recommendations to join the University as a learner are always forthcoming from them. Our students have excelled in the field of sports and have already crossed the international borders thus setting new benchmarks for the peers to follow.

6. Problems Encountered and Resources Required

No methodology of teaching learning has been perfect and everyone has their inherent shortcomings. To begin with the buzz method, there was unfamiliarity among the facilitators in using this particular technique. Although everyone gets an equal opportunity to be the group leader but some learners may not be vocal enough and may hesitate in voicing their opinions initially. The time required for this type of learning may not be adequate for all the students to come up their own ideas and some of them may be slow thinkers. Another problem encountered is that it is difficult to objectively evaluate the learner's ability by these sessions. This method requires special seating arrangement in the class as the

students may be discussing the things with their next door neighbor only. More time is required and Group leaders are required to carry out this methodology.

7. **Notes**

   By adopting this methodology of teaching learning we can help students to learn better, be a participant in group activities, assume the role of leaders, and a learner can contribute better to his as well as other student's prowess of thinking and analyzing. This technique can be used at anytime throughout the deliberation, particularly when we want trainees to become actively engaged with the topic at hand.

Evaluative Report of the Department

1. Name of the Department: **Department of Anatomy**
2. Year of establishment: **2001**
3. Is the Department part of a School/Faculty of the university? : **Yes**
4. Names of programmes offered (UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., D.Sc. D.Litt., etc.) :

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the

Executive Council for final approval.

- The approval of Executive Council is the final in this regard and the program is flouted in the department.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.

- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned.
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned.
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.

- The approval of Executive Council is the final in this regard and the program is flouted in the department.

The University R &D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Research Projects and publications in various forms.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

- Regular PG and UG Teaching with brain storming on various practical aspects.
- Punctuality
- Round the clock busy emergencies, Labour Rooms and OTs. Most of cases are complicated cases and referred from various health settings including government medical colleges.
- Reputed faculty involved as examiners, guest lecturer, supervisor of various family welfare programmes in association with different organizations, Examiner of MBBS, MS, MD, DNB, IGNOU (Mother and Child Health Courses), member of UCG Sexual Harassment Committee, inspector of various medical colleges in MCI and UGC, executive of various academic associations, chairperson of cancer screening committee AOGD.
- Investigators in various research projects.

Weakness -

- Lack of Janani Suraksha Yojna
- Need more CMEs & Workshops
- Frequently changing faculty, as they prefer to join government institutions.
- Few training programme for peripheral doctors.
- Need of more transport facility for patients from nearby areas.

Opportunities –

- Research Facilities
- Audiovisual facilities in all class room.
- To upgrade knowledge by various CMEs, Seminars, Guest Lecture & Workshops.
- To serve poor population as free medical facilities are available.
- To work in advanced gynecological techniques as Endoscopy, Laser, Assisted Reproductive Techniques.

Challenges-

- To increase Family Planning Services to rural masses.
- To start advanced ART services.

- To be associated with ICMR, DST and other organizations for improvisation in research projects.
- To make efforts so that more and more students from our department are selected for jobs at national and international level.
- To conduct CMEs, Workshops and Conferences on larger scale.

52. Future plans of the department:

- Development of advance endoscopic surgery
- Development of IVF
- Programme
- Development of online student's teacher interaction program

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.
Yes, the following exercise is conducted by the department before the development of a new program.

- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accepted by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.

- Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? :
- Alumni and employers on the programmes offered and how does the department utilize the feedback?

Yes. The department obtains feedback from all its stakeholders periodically.

Feedback on Curriculum as well as Teaching-Learning-Evaluation is taken from Teachers. Feedback from students is also collected on the teaching performance of their teachers' as well as their campus experience. The department organizes annual Alumni Meet and collects the feedback from the alumni on curriculum and placement opportunities for the students. Feedback is also collected from industry experts, recruiters, parents and non-teaching staff members also. The Academic Planning Committee analyzed the Feedback, where the rationality, objectivity and relevancy of the opinion are strictly judged and the report is submitted to the higher authority for effective implementation.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:** (The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive.The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the academic. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Master learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, Give details. : All the diploma courses are accredited by U.P. State Medical Faculty, Lucknow.

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

The University R &D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Comparison of Microscopy and PCR in Detection of Mycobacterium tuberculosis. The faculty members of the department published .research articles in various reputed research journals and participated in World Health Day & Malaria Day. The department is WI-FI enabled, thus help the faculty members to upgrade their knowledge base. The total citations, h-index and I-index of the faculty members are given below.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

- We have separate teaching faculties in the subjects of Pathology, Microbiology & Biochemistry.
- Office is equipped with Internet facility.
- Two class rooms have L.C.Ds.
- One of the class room is equipped with mike and speakers
- We have separate cabins for all the faculty members.

Weakness-

- We do not have faculties to monitor additional courses & no Departmental faculty for teaching Anatomy & Physiology which is included in Ist year of all courses.
- Same laboratory is being shared by students of MBBS, BDS & all the Paramedical courses as a result of which there are difficulty in planning the time table for practical Exam.
- We require more lecture theatre as the total no. of students are 272. At present time we have need a only 03 lecture theatre.
- It is very hot on 6th floor in the Department & cooler & A.C. are urgently needed.

- Opportunities- Retaining the teaching faculty, by giving certain incentives to them.

Challenges-

- To expand our college, by setting up a separate lab for DMLT & BMLT course.
- Strengthening the teaching faculties for various subjects.
- A separate examination Hall for conducting frequent exams of various course running under the Paramedical Sciences.

52. Future plans of the department:

- To have additional faculty member for various other Paramedical Courses.
- To develop the existing infrastructure, to improve the teaching.
- To organizes Workshops, seminars for enrichment & benefit of students.
- To encourage admissions in M Sc. MLT course, for maximum seats of 10 currently there are 03 students only.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in theproposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified andsubmitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

44. Give details of student enrichment programmes (special lectures / workshops / seminar) involving external experts:

CMEs and orientation programmes organized by College and Departments

- Besides the regular scheduled programmes there is daily PG teaching on decahead microscope. This includes Cytopathology, Histopathology and Bone marrow slides.
- During slide seminars theoretical part of one particular system is discussed in detail as theory lecture.
- Daily during grossing of surgical specimens one faculty member guides and teaches them about the procedures and interpretation.

45. List the teaching methods adopted by the faculty for different programmes. Teaching Methodology: (Make bifurcation as theory methods and practical methods)

a) Theory : Lectures, Audio Visual Aids

b) Practical : Demonstrations, Audio Visual Aids

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty

members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session, every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given

remedial instruction, such as extra class and tutorials. Various innovative pedagogies are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

47. Highlight the participation of students and faculty in extension activities: **05**

Type of event/ Activity	***Title of event***	***Date of conduction and year***	***Venue***	***No. of students participated***
Pharmacovigilance	ADR monitoring	26.09.13 02.10.13 09.10.13 23.10.13	Clinical Lecture Theater	30 Faculty Member & MD students 12 MD students 2 MD students 2 MD students
Workshop	Planning of curriculum for MBBS / MD / DMpharmacology courses	2013	School of tropical diseases, Kolkata	1 faculty member
Workshop	Prudent use of antimicrobials & infection control	7th& 8th April 2014	Dept. of Microbiology, SMC, Meerut	5 faculty members, 7 MD students
Workshop cum CME	5Metabolic Syndrome	29th Jan. 2014	Dept. of Biochemistry, SMC, Meerut	2 faculty members & 5 MD students
Pharmacovigilance	Brain storming session on problems of implementing National Pharmacovigilance programme	12th May 2014	Indian Pharmacopiea Commission, Ghaziabad	2 faculty members

48. Give details of "beyond syllabus scholarly activities" of the department:

a)

Name of event	***Title of event***	***Date of conduction***	***No. of participants***
Clinical Pharmacology Exercise	Critical evaluation of drug promotional literature	13.08.13	100 MBBS students
ADR monitoring	-	At regular interval	6 MD students
Pharmacovigilance	To bring awareness about ADR forms (OPD, indoor, CDCSCO) and methods of assessing ADRs by various tools.	26.09.13 02.10.13 09.10.13 23.10.13	30 Faculty Member & MD students 12 MD students 2 MD students 2 MD students
Clinical Pharmacology	Interactive Clinical Pharmacology	13.9.13, 20.09.13	100 MBBS Students

49. State whether the programme / department is accredited/ graded by other agencies? If yes, Give details. : **MCI**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

- Department developed a simple, feasible, effective apparatus for administration of general anesthetic agent (inhalational) to experimental animals.
- Development of novel concept of "open book examination" for UG students.
- Use of alternative animal tissues procured from slaughter house for P.G. students.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

- Well-equipped department.
- well trained & hard working expert teaching faculty
- Availability of teaching staff during duty hours.
- Sincere, hard working PG students.
- Sincere, hard working, non-teaching staff.

Weakness -

- Need of more sophisticated equipments like HPLC, computer lab for CAL teaching.
- Need of more weather friendly rooms & class rooms
- Lack of world class journals (national, international).
- No funding for research projects from govt. agencies.
- No. super specialty course (e.g. : DM, D.Sc.)

Opportunities –

- Freedom to work, research and tech using innovative methods and techniques.

Challenges-

- Being a tertiary teaching, self financed institute, grants from govt. agencies difficult to get. All expenses of projects & thesis have to be borne by researchers.

52. Future plans of the department:

- Planning to start DM & other certification courses in dept.
- Active participation in national pharmacovigilance programme, ethical committee
- To implement hospital antibiotic policy.
- Active participation of clinicians of CSSH & Meerut city in Pharmacovigilance programme.
- Formulation of "standard treatment guidelines" in CSSH, Meerut.

Evaluative Report of the Department

1. Name of the Department : **Physiology**
2. Year of establishment : **2001**
3. Is the Department part of a School/Faculty of the university? **Yes**
4. Names of programmes offered (UG, PG, M. Phil., Ph.D., Integrated Masters; Integrated Ph.D., M. Sc., D.Litt. etc.):

27. Faculty recharging strategies (UGC, ASC, Refresher/orientation programs, workshops, training programs and similar programs).

The University has well defined policy for recharging faculty members, such as:-

1. Academic Leave and Financial assistance for participating in Seminar/Conference/workshop

2. Provision of Seed money for conducting research.

3. Collaboration with both Government and Private institutions/organizations for conducting FDP.

4. Inviting external experts to conduct FDP as Resource Person.

5. Increment is given to the faculty members on the basis of their participation in the Faculty Development program.

6. The University R &D cell takes numerous initiatives round the year to keep the faculty member abreast with latest development in their field.

28. Student projects (Last 3 Years Data)

- Percentage of students who have done in-house projects including inter-departmental projects – **100%**
- Percentage of students doing projects in collaboration with

other universities / industry / institute - **Nil**

29. Awards / recognitions received at the national and international level by

- Faculty- **Nil**
- Doctoral / post-doctoral fellows - **Nil**
- Students **06**

31. Code of ethics for research followed by the departments :

Specifically the Department follows the Research Ethics approved by the Regulatory authority of the programs it offers. These are as follows:-

1. Subharti Medical College has Institutional Ethics Committee approved by Drug Controller General of India and Animal ethics Committee. Research projects of all the departments are cleared and approved by these committees before starting the projects. The committee periodically organized workshop to sensitize faculty member on ethical dimensions of research.. The committee periodically organized workshop to sensitize faculty member on ethical dimensions of research

2. Academic freedom is provided to the faculty members.

3. There is no parity in the department for using resources related to research either for students/ faculty.

4. A caring research environment with efficient policies, management, structures, support services and programmes is made available for research activities.

5. Strict policy for effective use the funds of the clients and funders of research

6. Collaboration of the University and the broader scientific community is also there.

7. Zero tolerance policy for plagiarism / Duplicity in research activities.

8. Sensitive to the colleagues and collaborators, students, human participants in their research, animals used in their research.

32. Student profile programme-wise: **N/A**

33. Diversity of students: (Current Batch)- Information available with Swami Vivekanand University

34. How many students have cleared Civil Services and Defense Services examinations, NET, SET, GATE and other competitive examinations? Give details category-wise.: **If anyone Joined Govt. Medical Service:-**

1. **Dr. Shikha Gupta (MD) – LLRM Medical College (U.P.)**
2. **Dr. Anju Madan Gupt (MD) – IGMC, Shimla (H.P)**
3. **Mr. Ashwani Sharma (M.Sc.) – Andman& Nicobar Institute of Medical Sciences, PortblairAndman& Nicobar**

40. Number of post graduate students getting financial assistance from the university: **14**

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology. Yes we follow the guidelines set by the university / MCI

- The academic planning committee submits the proposal to the Dean/Director of the faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal in kept for discussion in faculty Board. As per the recommendation of the faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final Approval.
  The approval of Executive Council is the final in this regard and the program is flouted in the department.

42. Does the department obtain feedback from :

Yes

a. Faculty on curriculum as well as teaching-learning-evaluation? If yes, how does the department utilize the feedback?: **Redesigning lecture and course schedule according to the need of the students to provides best possible educational experience to the students**
Involvement of faculty in departmental courses, non departmental courses and interdisciplinary courses.

b. Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? : feedback obtained from the students is utilized to improve teaching at individual level.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback?

43. List the distinguished alumni of the department (maximum 10) **Nil**

44. Give details of student enrichment programmes (special lectures / workshops /seminar) involving external experts : **Nil**

45. List the teaching methods adopted by the faculty for different programmes. Teaching Methodology: **(Make bifurcation as theory**

methods and practical methods)
Theory – lecture, seminars, group discussions,
Practicals – briefings and demonstrations on virtual subjects
Various tools used for teaching are-chalkboard, power points, overhead projector, charts, PBS, case study, handouts, and computer based simulations

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

49. State whether the programme/ department is accredited/ graded by

other agencies? If yes, give details.**Courses are approved by MCI**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. : **Research paper are published in International / National journal**

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

- **Strength** - excellent faculty, good infrastructure, supportive management
- **Weakness -** weak research training
- **Opportunities-** up gradation of the department to meet clinical requirements
- **Challenges -** to motivate students to develop an attitude of questioning and self learning

52. Future plans of the department:
To upgrade the department to meet clinical requirements.

Evaluative Report of the Department

1. Name of the Department : **Psychiatry**

49. State whether the programme / department is accredited/ graded by other agencies? If yes, Give details. : **Courses are approved by MCI**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

Our Department is the exclusive department for U.G./P.G. teaching with total staff strength of 23 people including 5 eminent Psychiatrists and other Mental Health professionals for providing facilities to treat mental health Problems in the region of Western U.P. and adjoining NCR. It is an exclusive department which also provides medico-legal consultations to the patients of mental sub-normality and other chronic mental disabilities. We have been authorized by the CMOs of Meerut and Muzaffarnagar to provide Disability Certificates for deficiency in subjects of various ages.

The General Psychiatry OPD entertains a good variety and rush of patients of various ages on a daily basis, besides special OPDs running on each day.

The department has also started Community Psychiatry Clinic two in a week (Friday) at Multannagar & (Thursday) Khajuri Community Health Center, Meerut in collaboration with the Department of Social & Preventive Medicine.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strengths

- In patient care services and modified ECT services
- Emergency Psychiatric services
- Consultation liaison services
- Psychiatric Awareness campaigns
- Rural & Urban Satellite Psychiatric Services
- Continuous Research Work
- Adequate faculty and staffs (Psychiatrists, Clinical Psychologists and Medical Social Workers, Nursing Staffs & Escort Staffs)
- Regular academics and various training modules for P.G. Students
- Case Conferences & OSCT for training of P.G. Students
- Quarterly written & practical assessments of P.G. Students
- Participation in National & International conferences
- Organization of state level conferences

Weakness

- Less number of Research Projects
- Psychiatric Rehabilitation Services are lacking
- Frequent turnover of Junior Faculty

Opportunities

- New Research Projects with support from ICMR/UGC/DST
- Participation in upcoming national & international conferences
- Organization of workshops and conferences at Zonal level
- Separate De-Addiction Unit
- Post Graduate Diploma course in Counseling & Guidance (PGDCG)

Challenges

- Lack of public awareness and stigma associated with utilization of psychiatric services
- No help from Govt. Sector or Health organizations
- Lack of public private partnership
- Collaboration with NGOs

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:** learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required

sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning

productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?**:** learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the

session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?**:** learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitors ensures the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs required sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. : **No**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

The University research and development policy inspires faculty members in engaging research activities for generating new knowledge. Following are the contributions made by the department regarding this -

- Faculty members are encouraged / motivated to conduct researches.
- Faculty members participated in various conferences/ seminar/ workshop as speakers.
- Faculty members participated in health related discussion telecasted on television.

- Articles regarding public health awareness and their health problems were published in the newspaper.
- Students projects and dissertation were guided.
- Research articles are published in reputed journals.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

- One of the oldest Physiotherapy College & well known for providing quality education in the field of physiotherapy.
- Attached to Subharti Medical College and 1097 bedded Chhatrapati Shivaji Subharti Hospital Subhartipuram, Meerut along with a separate well equipped fully air-conditioned Physiotherapy OPD
- Well stocked & rich library having around 3000 books, magazines, periodicals & journals.

Weakness

- Lack of collaboration
- Lack of research orientation among the faculty.

Opportunities

- Dual Degree Programme
- Student exchange programme
- Certificate programmes during Post Graduation and after Post Graduation.
- Multidisciplinary Research programme.

Challenges

- To maintain the standards and the quality of education & services set by the college since its establishment which makes Subharti College of Physiotherapy one of the best and topmost colleges of north India.
- Tough competition for education
- Placement opportunities.
- Rural background students language barrier.

52. Future plans of the department:

- To start two more specialization (branches) of MPT (PG) from session 2016-17.
- The college viewing possibilities of starting Ph.D. programme from session 2017-18.

Evaluative Report of the Department

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **No**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

- Conducting group research project
- Organize Awareness camps
- Post seminar presentations
- Contributions of faculty by writing articles for research journals and participating in seminars, conferences etc.
- Journal club.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

- **Strength-**
  - 100% placement in reputed health agencies
  - 100% admission rate
  - Excellent physical facilities with latest Audio Visual Aids and technology
  - Well-equipped laboratories
  - Cordial and Courteous relationship among students and teachers
- **Weakness**
  - Doctoral program in Nursing is not available.
  - Difficulties in research grants
- **Opportunities**
  - Further expansion of the program
  - International collaboration
  - Participate in research activities of University
  - Inter-college collaboration
- **Challenges**
  - Filling up of the PhD teaching staff is a major challenge.
  - Conducting Qualitative and experimental researches.

52. Future plans of the department:

- To start M. Phil and Ph.D program in Nursing
- To start Post Basic Diploma programs in: O.T. Nursing, Oncology Nursing, Neonatal, Critical care Nursing, Orthopedic and Rehabilitation Nursing, Emergency and Disaster Nursing
- To collaborate with reputed institutions/ industries for faculty research work and exchange program.
- To establish community Nursing research center
- To start partnership programme for strengthening of nursing midwifery education in our institution.

Evaluative Report of the Department

1. Name of the Department: **Department of Civil Engineering**
2. Year of establishment: **2009**
3. Is the Department part of a School/Faculty of the university? **Yes**
4. Names of programmes offered (UG, PG, M. Phil., Ph.D., Integrated Masters; Integrated Ph.D., D.Sc., D.Litt., etc)

- Diploma:- Diploma in Civil Engineering
- UG Programme:- B.Tech (Civil Engineering)
- PG Programme:- M.Tech (Construction Management)
- M.B.A (Project & Construction Management)

5. Interdisciplinary programmes and departments involved :

Name of programme	Department Involved
Diploma (2nd year)	Department of Applied Science, Department of Mechanical Engineering
B.Tech(2nd year)	Department of Humanities and Social Sciences, Applied Science, Mechanical Engineering,
B.Tech(3rd year)	Department of Humanities and Social Sciences, Applied Science, Mechanical Engineering, Department of Management Studies, Department of Environmental Engineering.
B.Tech(4th year)	Department of Environmental Engineering.

6. Courses in collaboration with other universities, industries, foreign institutions, etc.

- M.Tech (Construction Management): M.I.T, Pune
- M.B.A (Project & Construction Management): M.I.T, Pune

7. Details of programmes discontinued, if any, with reasons: **Nil**
8. Examination System: Annual/ Semester/Trimester/Choice Based Credit System

31. Code of ethics for research followed by the departments

Specifically the Department follows the Research Ethics approved by the Regulatory authority of the programs it offers. These are as follows:-

1. Department has a Research Ethics Committee. The committee periodically organized workshop to sensitize faculty members on ethical dimensions of researchAcademic freedom is provided to the faculty members.
2. There is no parity in the department for using resources related to research either for students/faculty
3. A caring research environment with efficient policies, management, structures, support services and programmes is made available for research activities.
4. Strict policy for effective use of the funds of the clients and

funding agencies of research

5. Collaboration of the University and the broader scientific community is also there.
6. Minimum tolerance policy for Plagiarism/Duplicity in research activities.
7. Sensitive to the colleagues and collaborators, students, human participants in their research, animals used in their research.

41. Was any need assessment exercise undertaken before the development of new programs? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS , necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

42. Does the department obtain feedback from

a. Faculty on curriculum as well as teaching learning evaluation? If yes, how does the department utilize the feedback? :

The Department obtains feedback from faculty on Curriculum as well as teaching-learning- evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality. The faculty who is involved in curriculum development gives

the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.

The faculty discuss during departmental meetings conducted periodically.

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

Yes, Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The students, who are the primary and most important source of information, furnish Feedback through:

1. Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc.
2. Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).
3. The Principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.
4. Department has a mechanism to obtain feedback from the outgoing final year students and the suggestions made are taken into consideration during the subsequent Board of Studies meeting.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback? :

1. Alumni are considered as vital source towards the development of institution. As the young engineer's moves to corporate fields, in the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
2. Employer's are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the organizations by candidate.

43. List the distinguished alumni of the department (maximum 10):

Name of Alumni	Roll No.	Programme Completed	Designation and Company
Abhinav Singh Verma	901100001	B.Tech	Site Engineer (Mahagun Construction Company)
Ajai Kumar Sahni	901100002	B.Tech	Site Engineer (Supertech Infratech Pvt. Ltd.)

46. How does the department ensure that programmed objectives are constantly met and learning outcomes are monitored?

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed.the following points are taken in to consideration to fulfillour objectives:

1. Students' feedback on teaching and course content is taken in each course.
2. Performance of students in Competitive exam.
3. Students' performance in campus placements.
4. Recruiter's feedback.
5. Feedback from alumni and industry.
6. Publications in Journals.

47. Highlight the participation of students and faculty in extension activities:

Type of event / Activity	**Title of event**	**Date of conduction and year**	**Venue**	**No. of students participated**
Ekta Diwas	National Integrity Day	31.10.2014	S.I.T.E., S.V.S.U., Meerut	200
Republic Day	Cultural Program	26 Jan 2016	S.I.T.E., S.V.S.U., Meerut	55
Independence Day	Cultural Program	15 August 2015	S.I.T.E., S.V.S.U., Meerut	35

Subharti Day	Subharti Day	Monthly as per svsu calendar	S.V.S.U., Meerut	130

48. Give details of "beyond syllabus scholarly activities" of the department:

Name of event	Title of event	Date of conduction	No. of participants
Workshop	Entrepreneurship Orientation	26 Feb 2015	114
Seminar	How to Prepare GATE, MAT, CAT	7DEC. 2015	45
Workshop	On Recent Technologies	5 November 2015	20
Republic Day	Cultural Program	26 Jan 2015	08
Independence Day	Cultural Program	15 August 2014	06
Subharti Day	Gandhi Jayanti	2nd Oct. 2014	05
Subharti Day	Chandra Shekhar Azad Death Anniversary	27 Feb. 2015	05

49. State whether the programmed / department is accredited/ graded by other agencies? If yes, give details.

Yes (AICTE approval)

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

Civil Engineering covers broad dynamic area associated with gradual advancement of technology to satisfy requirements of the globe. It is associated with basic and applied sciences both. Students graduated from the department working in various sectors dealing with infrastructure development, transportation development and construction of various structures to combat natural calamities and its mitigation. The department has already produced human resources by providing education, training and innovative attitude. The learning of technology must be integrated in daily classroom teaching activities within the context of educational goals for it to be meaningful. Therefore, in this course, we will incorporate an integrated approach and learn to use technology in the process of applying it to resolve teaching and learning issues. We will use problem-based learning as a channel for our exploration. We will discuss why and how to integrate computers in our teaching. I hope that by doing so, we will critically re-examine and positively transform our ways of teaching with computer and new technologies in civil construction project.

Course Objectives: The over-all objective of this course is to produce future leaders for infrastructure development, highway engineers to play important role in transportation system of our country, researchers

to conserve natural resources of our country for sustainable development and learned professionals to enhance education level of our society. The course objectives are as below:

- To develop innovative teaching learning mechanism to enhance quality of education to the best level.
- To develop students with practical experience to get adopted in industry as well as research sectors.
- To enable students to understand the nature of shifting employment and develop themselves accordingly withtime.
- To learn implementation of technologies from different sectors and their use in advanced manner.
- To incorporate appropriate technologies collaboratively in educational settings through problem-based learning projects.
- To incorporate moral education in students to make them intellectual and spiritual to serve country in various capacity in different conditions.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

- **Strength**:
  - A healthy work environment for faculty to work efficiently.
  - Availability of modern lab facility to perform experiments.
  - Excellent medical facilities for faculty and students.
  - Regular motivation from management for enrichment and enhancement of faculty.
  - Expertise in teaching traditional and non-traditional scholars.
- **Weakness:**
  - Industrial consultancy is to be strengthened considerably.
  - Collaboration/Exchange Programme with other Institutions of higher education and Industry.
  - Awareness of IPR among faculty needs to be enhanced to accelerate effective conversion of research activities into viable/commercialized projects.
  - Lack of international and off-campus study and exchange programmes.
  - Be short of funds from government.
- **Opportunities:**
  - Faculty members are promoted for higher education.
  - Setting -up of industry sponsored training centers.
  - Interdisciplinary projects.
  - Seed money policy for entrepreneurs.
  - Improving the employment scenario.

- **Challenges:**
  - Students with rural background.
  - Preservation of social values and attitudes in engineering environment.
  - Regular up gradation in technology.
  - Promoting collaborative research with other institutes and industries that visibly impacts society.
  - To get 100% employment.

52. Future plans of the department:

- Development of consultancy services in various sectors of our concern.
- Inclusion of renowned and experienced faculty from India and abroad to enhance quality of education.
- Organize workshops and lectures to gain expertise in different untouched part of our concern by distinguished professors, researchers and policy makers of national and international repute.
- The Department has to organize seminars/workshops/ invited talks for students on current trends to understand their areas of propagation
- Improving project work and research work under the direction of such qualified people who will aid the students getting better technical exposure and better place in the job market.

Evaluative Report of the Department

1. Name of the Department: **Computer Science & Information Technology**

2. Year of establishment: **2005**

3. Is the Department part of a School/Faculty of the university? **Yes**

4. Names of programmes offered (UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., D.Sc., D.Litt., etc.)

Diploma: **Diploma Engineering** - Computer Science & Engineering

UG programme:- **B.Tech.**- Computer Science & Engineering

B.Tech.- Information Technology

PG programme :- **M.Tech.**- Computer Science & Engineering

M.Tech.- Cyber Security

Research programme :- Ph.D.

5. Interdisciplinary programmes and departments involved:

Name of Programme	Departments involved
Diploma in Engineering- Computer Science & Engineering	Department of Electronics & Communication, Department of Applied Sciences, Department of Mechanical Engineering, Department of Environmental Engineering
Bachelor of Technology - Computer Science & Engineering/Information Technology	Department of Electronics & Communication, Department of Applied Sciences, Department of Environmental Engineering

6. Courses in collaboration with other universities, industries, foreign institutions, etc. **Nil**

7. Details of programmes discontinued, if any, with reasons **Nil**

8. **Examination System: Annual(√)/Semester(√)/Trimester(×)/Choice Based Credit System (×)**

9. Participation of the department in the courses offered by other departments

Name of Course	Department under which offered
Programming in C/C++	Department of Electronics & Communication Engineering
Computer Architecture & Organization	Department of Electronics & Communication

10. Number of teaching posts sanctioned, filled and actual (Professors/Associate Professors/Asst. Professors/others)

31. Code of ethics for research followed by the departments

Engineering is an important and skillful profession. As members of this profession, engineers are expected to exhibit the highest standards

of honesty and integrity. Engineering has a direct and vital impact on the quality of life for all people., the services provided by engineers require honesty, impartiality, fairness, and equity, and must be dedicated to the protection of the public health, safety, and welfare. Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct.

- No harmful policies
- Using knowledge and skills for the enhancement of human welfare
- High impact teaching for the benefit of students and society
- Striving to increase the competence and prestige of the engineering profession

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

- While designing the curriculum current technologies, feedback from Alumni, feedback from employers are also taken into consideration.
- A survey is conducted pertaining to different aspects like Industrial requirements, futuristic trends, etc. Based on draft statements of syllabi and other elements, the curriculum is developed.
- In addition to the above, members of faculties undertaking a survey related to the practices in National and International institutions and ascertain to which the institution can adapt the implementation of such practices in the institution.
- The institution organizes Conferences, Seminars, Faculty development programmes, Guest Lectures for faculties as well as students.
- The drafts are taken up for discussion at the Board of Studies meeting, the ever recommendations receive maximum acceptance before the Board of Studies is geared for final document stage.

All the decisions taken in the Boards of Studies are placed for discussions before the approval in the Academic Council and their decision is made acceptable at large.

The institution ensures the continuing relevance of its programmes and seeks modification in the existing courses to meet the emerging needs. Within its jurisdictional framework, the institution makes efforts to:

- Assess the existing curriculum
- Seek removal of the deadwood or obsolete form of syllabus
- Bring in modifications as per Board of Studies and Academic Council's recommendations.
- Make it more effective and efficient from student teacher's point of view .

42. Does the department obtain feedback from

a. Faculty on curriculum as well as teaching learning evaluation? If yes, how does the department utilize the feedback? :

The Department obtains feedback from faculty on Curriculum as well as teaching learning evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality. The faculty who is involved in curriculum development gives the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The students, who are the primary and most important source of information, furnish Feedback through:

- Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc.
- Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).
- The principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.
- Department has a mechanism to obtain feedback from the outgoing final year students and the suggestions made are taken into consideration during the subsequent Board of Studies meeting.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback? :

- Alumni are considered as vital source for the development of institution. As the young engineer's who are migrated corporate fields, In the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
- Employees are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the organizations by candidate.

43. List the distinguished alumni of the department (maximum 10) :

Name of Alumni	Batch	Programme completed	Designation/ Organization

45. List the teaching methods adopted by the faculty for different programmes.

Faculty members adopt various teaching methods to cater to the needs of the entire spectrum of students in a particular class. The following are the frequently used teaching methods by the faculty:

a) Lectures
a) Power point presentation
b) Group Discussions
c) Group assignments and projects
d) Seminars
e) NPTEL Online Resources
f) Workshops

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

- Continuous assessment of Teaching methodologies
- Feedback from students and faculty members
- Addressing students grievances related to teaching and learning process
- Provision of remedial classes and special lectures for average and below average students
- Special counseling to the weak students and formulation of mentoring groups
- Identifying the learning styles of different categories of learner such as brilliant, average and below average etc. and preparing individualistic programmes.

47. Highlight the participation of students and faculty in extension activities:

- The personal in the Department are also involved in blood donation during ―Blood Donation Camp organized every year by the university.
- "National Integrity Day" has been organized to increase friendship among students.
- Celebration of Birth and Death Anniversary of all the freedom fighter as Subharti Day. Ever since our school days, we are told that on Independence and Republic days, we should remember all those who sacrificed their lives or a part of their lives to free our country
- "Swach Bhart Abhiyaan," to spread the awareness about cleanliness
- Celebration of Youth Festival – Inter-Class, Inter-Collegiate, Inter-District
- Organization of Yoga Programs to Promote yoga and Meditation
- Unmukt Bhart Abhiyaan by founder of K.K.B. Charitable Trust

48. Give details of "beyond syllabus scholarly activities" of the department

Name of event	Title of event	Date of conduction	No. of participants
Republic Day	Cultural Program	26 Jan 2016	05
Independence Day	Cultural Program	15 August 2015	07

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **No**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

Computer Science in education is a broad and changing term due to the breadth of the area of study and the rapid and ever-changing nature of technology. Computer science include, but are not limited to, desktop publishing and presentations, computer use in classrooms, telecommunications and distance education, computer hardware and software, networking, lab administration, multimedia presentations, and publishing. Additionally, it does not help to learn to use technology in isolation, especially when technology changes quickly

and dramatically. The learning of technology must be integrated in daily classroom teaching activities within the context of educational goals for it to be meaningful. Therefore, in this course, we will incorporate an integrated approach and learn to use technology in the process of applying it to resolve teaching and learning issues. We will use problem-based learning as a channel for our exploration. We will discuss why and how to integrate computers in our teaching. I hope that by doing so, we will critically re-examine and positively transform our ways of teaching with computer and new technologies.

The over-all objective of this course is to gain a comprehensive understanding of computer Science in educational settings. Specifically, students will

- Demonstrate the use of social software (e.g., blog and wiki) and web-based communication technologies (e.g., course management systems, chat, web conferencing)
- author ware (e.g., Microsoft office tools, web design programs)
- multimedia technologies (e.g., digital picture, scanning, audio and video technologies)
- database programs (e.g., excel, SPSS, Access)
- specific-purpose electronic devices such as graphing calculators, language translators, scientific probe ware, or electronic thesaurus in content areas
- understand how computer science in education changes and expands over time
- understand the cultural and educational implications of using computers in classroom settings
- learn, experiment, and explore computer science in education
- situate computer science in educational settings and explore how computers help enhance teaching and learning in a constructive learning environment
- Incorporate appropriate technologies collaboratively in educational settings through problem-based learning projects.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength- The following points are considered for strength:

- Good Infrastructure Facility
- Dedicated faculty members and staff
- Development of web based online courses.
- Very good teaching environment.

Weakness

- Industrial consultancy needs to be strengthened.
- Lack of Government funded projects.
- Industry-Institute Interaction needs to be strengthened.

- R&D in cutting-edge technologies needs to be enhanced.

Opportunities

- Scope for strengthening the Industry Institute interaction for better placements of students.
- To develop R&D activities by interacting with premier Industries and reputed higher performing Institutions.
- Networking with other Institutions for sharing/acquiring knowledge in advanced technologies.
- Developing new curriculum in training programmes for students to match the industry requirements
- To develop students into successful entrepreneurs for the economic development of the country

Challenges

- Students with rural background.
- Constant challenges in technology according to industry requirement.

52. Future plans of the department:

- Workshops, Conferences and Guest lectures by distinguished & Renowned Professors from National Institutes, Industry.
- Augmented for QIP in the institutions of National importance.
- Research, Publications, conduct/attending SDP, FDP, STTP etc.

Evaluative Report of the Department

1. Name of the Department: **Electronics & Communication Engineering**

2. Year of establishment: **2005**

3. Is the Department part of a School/Faculty of the university? **Yes (Faculty of Engineering & Technology**

4. Names of programmes offered (UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., D.Sc. D.Litt., etc.)

- Diploma:- **Diploma** in Electronics Engineering
- UG programme: - **B.Tech.** (Electronics & Communication Engineering)
- PG programme: - **M.Tech.** (RF & Microwave Engineering)

  M.Tech. (Microelectronics)
- Ph.D

31. Code of ethics for research followed by the departments

Engineering is an important and skillful profession. As members of this profession, engineers are expected to exhibit the highest standards of honesty and integrity. Engineering has a direct and vital impact on the quality of life for all people., the services provided by engineers require honesty, impartiality, fairness, and equity, and must be dedicated to the protection of the public health, safety, and welfare. Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct.

- No harmful policies
- Using knowledge and skills for the enhancement of human welfare
- High impact teaching for the benefit of students and society
- Striving to increase the competence and prestige of the engineering profession

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

42. Does the department obtain feedback from

a. **Faculty on curriculum as well as teaching learning evaluation? If yes, how does the department utilize the feedback?** :

The Department obtains feedback from faculty on Curriculum as well as teaching-learning- evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality.

The faculty who is involved in curriculum development gives the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.

The faculty discuss during departmental meetings conducted periodically.

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

Yes, Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The students, who are the primary and most important source of information, furnish Feedback through:

1. Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc.
2. Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).
3. The principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.
4. Department has a mechanism to obtain feedback from the outgoing final year students and the suggestions made are taken into consideration during the subsequent Board of Studies meeting.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback? :

1. Alumni are considered as vital source towards the development of institution. As the young engineer's moves to corporate fields, in the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
2. Employer's are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the

organizations by candidate.

43. List the distinguished alumni of the department (maximum 10) :

Name of Alumni	Enrollment no.	Programme completed	Designation/ Organization Name
Mr. Anvesh Rajput	1001200650	M. Tech (RF)	Research Assistant SAMEER Mumbai
Ms. Mohini Preetam Singh	1001200652	M. Tech (Microelectronics)	Asst. Prof. (VIC Meerut)
Mr. Prashant Gupta	1001200668	M. Tech (Microelectronics)	Asst. Prof. (MIT Meerut)
Mr. Arti Goel	1001200654	M. Tech (RF)	Asst. Prof. (IIMT Meerut)
Ms. Divya Pathak	901100548	B.Tech.	Graduate Trainee Engineer (Ericsson India Global Services Pvt. Ltd.)
Mr. Ranjan Tiwari	901100575	B.Tech.	Control & Instrumentation Engineer (ACB India Limited, Korba, Chhattisgarh, Thermal Power Plant)
Mr. Vivek Kumar	1001100541	B.Tech.	Engineer (RF Optimization at Fraction Technologies, Chandigarh)
Mr. Mohit Kumar Burman	1001100516	B.Tech.	Project Survey Manager & Engineer (huawei telecommunications)
Ms. Sweta Swaroop	1101100554	B.Tech.	Technical Support Engineer (Wipro)

45. List the teaching methods adopted by the faculty for different programmes.

Faculty members adopt various teaching methods to cater to the needs of the entire spectrum of students in a particular class. The following are the frequently used teaching methods by the faculty:

- Classroom teaching using Marker-Board
- ICT
- NPTEL resources
- Term paper presentation, mini-projects, group activities

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?

1. Students' feedback on teaching and course content is taken in each course.
2. Performance of students in Competitive exam.
3. Students' performance in campus placements.
4. Recruiters feedback.
5. Feedback from alumni and industry.
6. Publications in Journals.

47. Highlight the participation of students and faculty in extension activities:

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **Nil**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied:

Electronics & Communication Engineering is a broad dynamic area undergoing bringing rapidly changing technologies to the fore. Electronics & Communication engineering include, but are not limited to, make electronics equipments, computer use in classrooms, telecommunications and distance education, computer hardware and

software, networking, lab administration, multimedia presentations, and publishing. Additionally, it does not help to learn to use technology in isolation, especially when technology changes quickly and dramatically. The learning of technology must be integrated in daily classroom teaching activities within the context of educational goals for it to be meaningful. Therefore, in this course, we will incorporate an integrated approach and learn to use technology in the process of applying it to resolve teaching and learning issues. We will use problem-based learning as a channel for our exploration. We will discuss why and how to integrate computers in our teaching. I hope that by doing so, we will critically re-examine and positively transform our ways of teaching with computer and new technologies.

Course Objectives

The over-all objective of this course is to gain a comprehensive understanding of electronics & communication in educational settings. Specifically, students will demonstrate the use of -

- Author ware (e.g., electronics design tools)
- Multimedia technologies (e.g., digital picture, scanning, audio and video technologies)
- Specific-purpose electronic devices such as graphing calculators, language translators, Scientific probe ware, or electronic thesaurus in content areas
- Understand how electronics & communication in education changes and expands over time.
- Learn, experiment, and electronics & communication in education
- Incorporate appropriate technologies collaboratively in educational settings through problem-based learning projects.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

- **Strength**:
  - A healthy work culture with both students and faculty motivated to work beyond office Hours.
  - Hardware based design projects.
  - Excellent medical facilities for faculty and students.
  - Conducive working atmosphere for faculty.
  - Expertise in teaching traditional and non-traditional scholars.
- **Weakness:**
  - Industrial consultancy is to be strengthened considerably.
  - Collaboration/Exchange programme with other Institutions of higher education and Industry.
  - Awareness of IPR among faculty needs to be enhanced

to accelerate effective conversion of research activities into viable/commercializable projects.

- Lack of international and off-campus study and exchange programmes.
- Be short of funds from government.

- **Opportunities:**
  - Faculty members are promoted for higher education.
  - Setting -up of industry sponsored training centers.
  - Interdisciplinary projects.
  - Seed money policy for entrepreneurs.
  - Improving the employment scenario.
- **Challenges:**
  - Students with rural background.
  - Preservation of social values and attitudes in engineering environment.
  - Regular up gradation in technology.
  - Promoting collaborative research with other institutes and industries that visibly impacts society.
  - To get 100% employment.

52. Future plans of the department:

- To provide an environment conducive to enriched learning opportunities both in theory and practice, thereby to groom future leaders in the domains of electronics & communication engineering.
- To overpass the gap between the existing placement scenario and the expectations of students by evolving effective strategies.
- To set-up adequate laboratory facilities in specific areas of research in the department.
- Motivating more graduates for entrepreneurship.
- To evolve and implement strategies so that the programmes offered by the department attains uniformity with the best in the country in coming years.

31. Code of ethics for research followed by the departments

Engineering is an important and learned profession. As members of this profession, engineers are expected to exhibit the highest standards of honesty and integrity. Engineering has a direct and vital impact on the quality of life for all people. Accordingly, the services provided by engineers require honesty, impartiality, fairness, and equity, and must be dedicated to the protection of the public health, safety, and welfare. Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct.

- No harm policies
- Using knowledge and skills for the enhancement of human welfare
- High impact teaching for the benefit of students and society
- Striving to increase the competence and prestige of the engineering profession

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

- While designing the curriculum current technologies, feedback from Alumni, feedback from employers are also taken into consideration.
- A survey is conducted pertaining to different aspects like Industrial requirements, futuristic trends, etc. Based on draft statements of syllabi and other elements, the curriculum is developed.
- In addition to the above, members of faculty undertake a survey related to the practices in National and International institutions and ascertain to which the institution can adapt the implementation of such practices in the institution.

- The institution holds Conferences, Seminars, Faculty development programmes, Guest Lectures etc. for the benefit of the faculty and students to update the latest developments and in the process.
- The drafts are taken up for discussion at the Board of Studies meeting, the ever recommendations receive maximum acceptance before the Board of Studies is geared for final document stage.

All the decisions taken in the Boards of Studies are placed for discussions before the approval in the Academic Council and their decision is made acceptable at large.

The institution ensures the continuing relevance of its programmes and seeks modification in the existing courses to meet the emerging needs. Within its jurisdictional framework, the institution makes efforts to:

- Assess the existing curriculum
- Seek removal of the deadwood or obsolete form of syllabus
- Bring in modifications as per Board of Studies and Academic Council's recommendations.
- Make it more effective and efficient from student teacher's point of view

42. Does the department obtain feedback from

a. Faculty on curriculum as well as teaching learning evaluation? If yes, how does the department utilize the feedback? :

The Department obtains feedback from faculty on Curriculum as well as teaching learning evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality. The faculty who is involved in curriculum development gives the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The students, who are the primary and most important source of information, furnish Feedback through:

- Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc.
- Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).

- The principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.
- Department has a mechanism to obtain feedback from the outgoing final year students and the suggestions made are taken into consideration during the subsequent Board of Studies meeting.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback? :

- Alumni are considered as vital source towards the development of institution. As the young engineer's moves to corporate fields, In the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
- Employer's are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the organizations by candidate.

43. List the distinguished alumni of the department (maximum 10) :

Name of Alumni	Batch	Programme completed	Designation/ Organisation
Ravi Prakash Verma	2013 Batch	B.Tech	Graduate Engineer Trainee /APS Technology Pvt.LTD
Nikhil	2014 Batch	B.Tech	Graduate Engineer Trainee /Riya Infotel

Special Workshop	Art of Living	July 2014	Dr.N.K. Ahuja	SVS University	06
Seminar	Recent Trends of Technologies	12 April 2013	Mr. Harminder Pal Singh	Profilic System Technologies Pvt. Ltd.	32
Training Course	Entrepreneurship Orientation	20 March 2015	TS Rajput	NSIC Aligarh	20

45. List the teaching methods adopted by the faculty for different programmes.

Faculty members adopt various teaching methods to cater to the needs of the entire spectrum of students in a particular class. The following are the frequently used teaching methods by the faculty:

a) Lectures
b) Power point presentation
c) Group Discussions
d) Group assignments and projects
e) Seminars
f) NPTEL Online Resources

g) Workshops.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :

- Continuous assessment of Teaching methodologies
- Feedback from students and faculty members
- Addressing students grievances related to teaching and learning process
- Provision of remedial classes and special lectures for average and below average students
- Special counselling to the weak students and formulation of mentoring groups
- Identifying the learning styles of different categories of learner such as brilliant, average and below average etc. and preparing individualistic programmes.

47. Highlight the participation of students and faculty in extension activities:

1 The personal in the Department are also involved in blood donation during ―Blood DonationCamporganized every year by the university.

2 "National Integrity Day" has been organized to increase friendship among students.

3 Celebration of Birth and Death Anniversary of all the freedom fighter as Subharti Day. Ever since our school days, we are told that on Independence and Republic days, we should remember all those who sacrificed their lives or a part of their lives to free our country

4 "Swach Bhart Abhiyaan," to spread the awareness about cleanliness

5 Celebration of Youth Festival – Inter-Class, Inter-Collegiate, Inter-District

6 Organization of Yoga Programs to Promote yoga and Meditation

7 Unmukt Bhart Abhiyaan By founder of K.K.B. Charitable Trust .

48. Give details of "beyond syllabus scholarly activities" of the department

Name of event	Title of event	Date of conduction
Guest Lecture	Ethical Hacking	5 Oct. 2012
Guest Lecture	Entrepreneurship Orientation	26 September 2012
Seminar	How to Prepare GATE, MAT, CAT	7 November 2012
Workshop	On Recent Technologies	5 November 2012
Education Day	National Education Day	11Nov 2014

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **No**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

Department has significant contribution towards development of renewable energy based Tea Drying System. The University R&D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Research Projects and publications in various forms. The department is WI-FI enabled, thus help the faculty members to upgrade their knowledge base.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength:

- State of art laboratory facilities and excellent infrastructure
- Excellent Medical Facilities in campus (24X7)
- Better e- learning concepts with efficient modules
- Highly qualified, experienced and dedicated faculty members from industry, reputed Universities and Institutions like NIT , IIT's etc.
- Development of web based online courses.

Weakness

- Industrial consultancy needs to be strengthened.
- Lack of Government funded projects.
- Industry-Institute Interaction needs to be strengthened.
- R&D in cutting-edge technologies needs to be enhanced.
- ERP needs to be installed in all modules.

Opportunities

- Student's participation in co-curricular and extra-curricular activities.
- Scope for strengthening the Industry Institute interaction for better placements of students.
- To develop R&D activities by interacting with premier Industries and reputed higher performing Institutions.
- Networking with other Institutions for sharing/acquiring knowledge in advanced technologies.
- Developing new curriculum in training programmes for students to match the industry requirements
- To develop students into successful entrepreneurs for the economic development of the country

Challenges

- Students with diverse background.
- Constant challenges in technology.

- To forge strong alliances with National and International organizations for academic and R&D activities in thrust areas of engineering, Technology, and Management.
- To get 100% employment

52. Future plans of the department:

- Workshops, Conferences and Guest lectures by distinguished & Renowned Professors from National Institutes, Industry.
- Augmented for QIP in the institutions of National importance.
- Research , Publications , conduct/attending SDP, FDP,STTP etc.

31. Code of ethics for research followed by the departments
Specifically the Department follows the Research Ethics approved by the Regulatory authority of the programs it offers. These are as follows:-
Engineering is an important and learned profession. As members of this profession, engineers are expected to exhibit the highest standards of honesty and integrity. Engineering has a direct and vital impact on the quality of life for all people. Accordingly, the services provided by engineers require honesty, impartiality, fairness, and equity, and must be dedicated to the protection of the public health, safety, and welfare. Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct.
- No harm policies
- Using knowledge and skills for the enhancement of human welfare
- High impact teaching for the benefit of students and society

- Striving to increase the competence and prestige of the engineering profession

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean / Director of the faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the Board of Studies, the necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

42. Does the department obtain feedback from

a. Faculty on curriculum as well as teaching-learning-evaluation? If yes, how does the department utilize the feedback? :

b. Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? :

c. Alumni and employers on the programmes offered and how

does the department utilize the feedback?

Yes. The department obtains feedback from all its stakeholders periodically. Feedback on Curriculum as well as Teaching-Learning-Evaluation is taken from Teachers. Feedback from students is also collected on the teaching performance of their teachers' as well as their campus experience. The department organizes annual Alumni Meet and collects the feedback from the alumni on curriculum and placement opportunities for the students. Feedback is also collected from industry experts, recruiters, parents and non-teaching staff members also. The Academic Planning Committee analyzed the Feedback, where the rationality, objectivity and relevancy of the opinion are strictly judged and the report is submitted to the higher authority for effective implementation.

43. List the distinguished alumni of the department (maximum 10) :

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy is used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

47. Highlight the participation of students and faculty in extension activities: **Nil**

48. Give details of "beyond syllabus scholarly activities" of the department

- Ambient Air Pollution monitoring in SVSU Campus on 6th & 7th November 2015.

49. State whether the programmed/ department is accredited/ graded by other agencies? If yes, give details. **Nil**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

The University R&D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Research Projects and publications in various forms. The faculty members of the department published more than 80 research articles in various reputed research journals and participated in over 100 Conference/Seminar/Workshop. The department is WI-FI enabled, thus help the faculty members to upgrade their knowledge

base. The total citations, h-index and I-index of the faculty members are given below.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength –

- Highly qualified, experienced and dedicated faculty members.
- Best infrastructure
- Practical based teaching
- Medical facility within the campus

Weakness –

- R & D needs to be enhance.
- Lack of government aided projects.
- Lacking in providing consultancy.

Opportunities –

- Seek research collaboration involving other colleges of University and other National laboratories.
- Scope for industry sponsored projects
- Provision of higher education for faculty by providing leave for the study duration

Challenges –

- To develop strong alliance with national and international institutions engaged in research on environmental health and environmental pollution.
- Interdisciplinary projects
- Constant UP gradation in technology
- Achieving 100% employment
- Students with rural background

52. Future plans of the department:

- Improving project work and research work under the direction of such qualified people who will aid the students getting better technical exposure and better place in the job market.
- To organize Workshop, Conference and guest lectures.
- Department will give more emphasis for improving teaching methods.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

- While designing the curriculum current technologies, feedback from Alumni, feedback from employers are also taken into consideration.
- A survey is conducted pertaining to different aspects like Industrial requirements, futuristic trends, etc. Based on draft statements of syllabi and other elements, the curriculum is developed.
- In addition to the above, members of faculty undertake a survey related to the practices in National and International institutions

and ascertain to which the institution can adapt the implementation of such practices in the institution.

- The institution holds Conferences, Seminars, Faculty development programmes, Guest Lectures etc. for the benefit of the faculty and students to update the latest developments and in the process.
- The drafts are taken up for discussion at the Board of Studies meeting, the ever recommendations receive maximum acceptance before the Board of Studies is geared for final document stage.
- All the decisions taken in the Boards of Studies are placed for discussions before the approval in the Academic Council and their decision is made acceptable at large.
- The institution ensures the continuing relevance of its programmes and seeks modification in the existing courses to meet the emerging needs. Within its jurisdictional framework, the institution makes efforts to:
  - Assess the existing curriculum
  - Seek removal of the deadwood or obsolete form of syllabus
  - Bring in modifications as per Board of Studies and Academic Council's recommendations.
  - Make it more effective and efficient in student teacher's view

42. Does the department obtain feedback from

a. Faculty on curriculum as well as teaching learning evaluation? If yes, how does the department utilize the feedback? :

- The Department obtains feedback from faculty on Curriculum as well as teaching-learning-evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality.
- The faculty who is involved in curriculum development gives the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.
- The faculty discuss during departmental meetings conducted periodically. The main emphasis is always on the practical implementation of theory aspects

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

Yes, Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The

students, who are the primary and most important source of information, furnish Feedback through**:**

- Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc. Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).
- The principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.

c. Alumni and employers on the programmes offered and how does the department utilize the feedback? :

- Alumni are considered as vital source towards the development of institution. As the young engineer's moves to corporate fields, in the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
- Employer's are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the organizations by candidate

43. List the distinguished alumni of the department (maximum 10) :

45. List the teaching methods adopted by the faculty for different programmes.

Faculty members adopt various teaching methods to cater to the needs of the entire spectrum of students in a particular class. The following are the frequently used teaching methods by the faculty:

- Classroom teaching using Marker-Board
- Teaching through PPT
- ICT
- NPTEL resources
- Term paper presentation, mini-projects, group activities

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

- The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the

beginning of the session, every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this, the class monitor monitors the proper engagement of the class.

- Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty
- Members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs, two Sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials.
- Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes

47. Highlight the participation of students and faculty in extension activities:

Name of event	Title of event	Event Date	No. of participants

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **No**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

- The department of mechanical engineering, being one of the largest and oldest departments of the institute, caters to its students with class tutorial and state of the art laborites. Mechanical Engineering is one of the major activities in the engineering profession and its principles are involved in the design, study, development and construction of nearly all of the physical devices and systems.
- Continued research and development have led to better machines and processes helping the mankind. To be an agent to help in technological growth of the country with some of the brightest minds in the country (both students and professors) dedicated to innovative and pioneering research, the department strives to develop affordable and sustainable technology capable of transforming the lives of other people. With a solid basis in the principles and practice of mechanical engineering.
- Our undergraduates are ready to engage in ethical approaches to engineering, with concern for society and the environment

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength

- Qualitatively better laboratory facilities and excellent infrastructure within the region.
- Free & Excellent Medical Facilities, Best in class Library facilities in campus (24X7).
- Better e- learning concepts with qualitative modules.
- Highly qualified, experienced and dedicated faculty members from industry, reputed Universities and Institutions like NIT , IIT's etc.
- Effective placement and training related activities offered to students.
- Main focus on Quality teaching ,Research , Publications , conduct/ attending SDP, FDP, STTP etc
- Excellent inter-departmental association for promoting interdisciplinary research , Effective carrier oriented sessions for students.

Weakness

- Industrial consultancy & Industry-Institute Interaction needs to be more strengthened.
- Lack of Government funded projects.

- Awareness of IPR among faculty needs to be enhanced to accelerate effective conversion of research activities into viable / commercialized projects.
- Strategic management system needs to be strengthened.
- R&D in cutting-edge technologies needs to be enhanced.
- ERP needs to be installed in all modules.

Opportunities

- Availability of web based online courses.
- Student's participation in co-curricular and extra-curricular activities.
- Research Facilities..
- Scope for strengthening the Industry Institute interaction for better placements of students.
- To develop R&D activities by interacting with premier Industries and reputed higher performing Institutions.
- Scope of Inter disciplinary research oriented projects.
- Developing new curriculum in training programmes for students to match the industry requirements.
- To develop students into successful entrepreneurs for the economic development of the country.

Challenges

- To maintain a proper ratio of students with diverse background with focus and main attraction towards NRI's Student.
- Regular up gradation towards recent trends in technology.
- To forge strong alliances with National and International organizations for academic and R&D activities in thrust areas of Engineering, Technology, and Management.
- Achieving 100% placement for students & Implementation of ERP.
- Inter disciplinary research promotion must be more enhanced.
- Emphasis on Research & Consultancy, lab to land approach.

52. Future plans of the department:

- Implementation of NPTEL course modules in teaching methodologies.
- Workshops, Conferences and Guest lectures by distinguished & Renowned Professors from National Institutes, Industry.
- The Syllabi and curriculum must be updated on regular basis.
- Improving project work and research work under the direction of such qualified people who will aid the students getting better technical exposure and better place in the job market.
- Augmented for QIP in the institutions of National importance.
- Research , Publications , conduct/attending SDP, FDP,STTP etc

- Paper less mode of communication in approximately all matters.
- Feasibility of Mechatronics as a subject of importance.
- Establishment of IT park, emphasis on Research & Consultancy.

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details.: **Nil**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied:

Trying to imbibe the knowledge of Biotechnology in students as per the present scenario. In Department of Biotechnology students are equipped with theoretical concepts and practical requirements of industry and research institutes. Students are empowered technologically and they are skilled to be at par with global standards.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

Syllabus of Biotechnology imparts knowledge about emerging areas in field of genomics, bioinformatics, industrial biotechnology so that students may pursue careers in industry or continue their research endeavors in a Ph.D program.

Weakness –

Not able to get grants from funding agencies

Opportunities –

Proposed programs, M.Phil. Biotechnology .

Challenges –

To prepare students from rural background for careers in academia, industry, national and international laboratories and R& D sectors.

52. Future plans of the department:

- To promote R and D sectors in our own department
- To develop state of art research laboratories
- To promote collaborations with other research labs.

Specifically the Department follows the Research Ethics approved by the Regulatory authority of the programs it offers. These are as follows:-

1. Department has Research Ethics Committee. The Committee periodically organized workshop to sensitize faculty members on ethical dimensions of research.
2. Academic freedom is provided to the faculty members.
3. There is no parity in the department for using resources related to research either for students/faculty.
4. A caring research environment with efficient policies, management, structures, support services and programmes is made available for research activities.
5. Strict Policy for effective use the funds of the clients and funders of research
6. Collaboration of the University and the broader scientific community is also there.
7. Zero tolerance Policy for Plagiarism/Duplicity in research Activities.

b) Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? :

c) Alumni and employers on the programmes offered and how does the department utilize the feedback?

Yes, the department obtains feedback from all its stakeholders periodically

Feedback on Curriculum as well as Teaching-Learning-Evaluation is taken from Teachers. Feedback from students is also collected on the teaching performance of their teachers' as well as their campus experience. The department organizes annual Alumni Meet and

collects the feedback from the alumni on curriculum and placement opportunities for the students. Feedback is also collected from industry experts, recruiters, parents and non-teaching staff members also. The Academic Planning Committee analyzed the Feedback, where the rationality, objectivity and relevancy of the opinion are strictly judged and the report is submitted to the higher authority for effective implementation

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?

Regular feedback is takenfrem the student and implemented: Yes

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

31. Code of ethics for research followed by the departments:

Specifically the Department follows the Research Ethics approved by the regulatory authority of the programs it offers. These are as follows: **Yes**

1. Department has a Research Ethics Committee. The committee periodically organized workshop to sensitize faculty members on ethical dimensions of research.
2. Academic freedom is provided to the faculty members.
3. There is no parity in the department for using resources related to research either for students/faculty
4. A caring research environment with efficient policies, management, structures, support services and programmes is made available for research activities.

5. Strict policy for effective use the funds of the clients and funders of research
6. Collaboration of the University and the broader scientific community is also there.
7. Zero tolerance policy for Plagiarism/Duplicity in research activities.
8. Sensitive to the colleagues and collaborators, students, human participants in their research, animals used in their research.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, the department before the development of a new program conducts the following exercise.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned

- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once it is approved by the Academic Council, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

42. Does the department obtain feedback from: **Yes**

- Faculty on curriculum as well as teaching-learning-evaluation? If yes, how does the department utilize the feedback? :
- The Department obtains feedback from faculty on Curriculum as well as teaching-learning-evaluation. Faculty members fills the questionnaire on the various aspects like relevance of the topics, projects, activities i.e. quantum and details, and quality. The faculty who is involved in curriculum development gives the feedback to the core group formed by the University. The feedbacks are also used to organize the programs and courses to take care of contents beyond syllabi.
- The faculty discuss during departmental meetings conducted periodically.

Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? : Yes

Department has mechanism to obtain feedback from students about the curriculum and teaching methodology. The students, who are the primary and most important source of information, furnish Feedback through:

- Questionnaire at the end of each academic session for each individual subject which includes questions about the faculty teaching methodology, syllabus coverage, teaching methods, etc.
- Informal discussions are also held from time to time to derive their response on the curriculum use like Class Committee meetings (at least two per semester).
- The principal also interacts with the students to collect their opinion on the curriculum, the methods and extent of implementation.

- Department has a mechanism to obtain feedback from the outgoing final year students and the suggestions made are taken into consideration during the subsequent Board of Studies meeting.
- **Alumni and employers on the programmes offered and how does the department utilize the feedback?**
- Alumni are considered as vital source towards the development of institution. As the young engineer's moves to corporate fields, In the defined interval faculty conducts Informal conversation, questionnaire, interviews to elicit feedback about the relevance of the course content, coverage etc. and during annual alumni meetings these points are further discussed and bring in notice of Board of studies and Academic Council for further consideration.
- Employer's are given open option to give critics and suggestion on the curriculum, which is obtained through the feedback Performa that deals with content relevance, teaching competency, classroom management, and students' participation, course duration, curricular and other activities during the short term training period as well as after joining the organizations by candidate.

43. List the distinguished alumni of the department (maximum 10) :

Name of Alumni	Enrolment No.	Programme completed	Details of Distinguished contribution
Mayank Chaudhary	0910100218	Yes	Selected in Cyber cure
Harish Gupta	0910100204	Yes	Selected in Cyber cure

Ranjeet kumar jha	1010200303	Yes	HCL Technology

44. Give details of student enrichment programmes (special lectures / workshops / seminar) involving external experts: **Common**

45. List the teaching methods adopted by the faculty for different programmes. Teaching Methodology: **(Make bifurcation as theory methods and practical methods)**

Faculty members adopt various teaching methods to cater to the needs of the entire spectrum of students in a particular class. The following are the frequently used teaching methods by the faculty:

- Classroom teaching using Marker-Board
- ICT
- NPTEL resources
- Term paper presentation, mini-projects, group activities

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?

Regular feedback is taken from the student and implemented: **Yes,**

The Academic Planning and Monitoring Committee of the Department execute various action plans in this regard. In the beginning of the session, every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

47. Highlight the participation of students and faculty in extension activities: **Yes**

- Blood donation.
- Community service
- Slum area visit.
- Street play.
- Campaign (Clean the city, Save the water, save the tree, pollution free campus, plantation of trees, against smoking, Drinking, Drank and drive, save the energy, etc).
- Advertisements based on community service like, save the girl child, gender equality, literacy, women empowerment, etc.

48. Give details of "beyond syllabus scholarly activities" of the department: **Nil**

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details.: **Nil**

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied:

Computer applications in education is a broad and changing term due to the breadth of the area of study and the rapid and ever-changing

nature of technology. Computer applications include, but are not limited to, desktop publishing and presentations, computer use in classrooms, telecommunications and distance education, computer hardware and software, networking, lab administration, multimedia presentations, and publishing. Additionally, it does not help to learn to use technology in isolation, especially when technology changes quickly and dramatically. The learning of technology must be integrated in daily classroom teaching activities within the context of educational goals for it to be meaningful. Therefore, in this course, we will incorporate an integrated approach and learn to use technology in the process of applying it to resolve teaching and learning issues. We will use problem-based learning as a channel for our exploration. We will discuss why and how to integrate computers in our teaching. I hope that by doing so, we will critically re-examine and positively transform our ways of teaching with computer and new technologies.

Course Objectives

The over-all objective of this course is to gain a comprehensive understanding of computer application in educational settings. Specifically, students will

- demonstrate the use of -
- social software (e.g., blog and wiki) and web-based communication technologies (e.g., course management systems, chat, web conferencing)
- author ware (e.g., Microsoft office tools, web design programs)
- multimedia technologies (e.g., digital picture, scanning, audio and video technologies)
- database programs (e.g., excel, SPSS, Access)
- specific-purpose electronic devices such as graphing calculators, language translators, scientific probe ware, or electronic thesaurus in content areas
- understand how computer application in education changes and expands over time
- understand the cultural and educational implications of using computers in classroom settings
- learn, experiment, and explore computer applications in education
- situate computer applications in educational settings and explore how computers help enhance teaching and learning in a constructive learning environment
- Incorporate appropriate technologies collaboratively in educational settings through problem-based learning projects.

Department Moto- Shiksha , Sanskar, Sawasthya and Sewa.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strengths

- Better retention of faculty
- Conducive working atmosphere for faculty
- Student centric learning atmosphere
- State of art laboratory facilities and infrastructure
- Highly qualified, experienced and dedicated faculty members from industry, reputed Universities and Institutions like NIT , IIT's etc.,
- Funded research projects are being undertaken from leading funding agencies.
- Constant encouragement given to faculty members to pursue research and Ph.D.
- Effective placement and training cell.

Weaknesses

- Industrial consultancy is to be strengthened considerably.
- Potential of networking with other institutions is not yet fully exploited.
- Awareness of IPR among faculty needs to be enhanced to accelerate effective conversion of research activities into viable / commercializable projects.
- Industry-Institute Interaction needs to be strengthened.
- R&D in cutting-edge technologies needs to be enhanced

Opportunities

- Innovation in teaching-learning process.
- Development of web based online courses.
- Student's participation in co-curricular and extra-curricular activities.
- Preparing students for GATE,BEC and aptitude Exams
- Scope for strengthening the Industry Institute interaction for better placements of students.
- To develop R&D activities by interacting with premier Industries and reputed higher performing Institutions.
- Networking with other Institutions for sharing/acquiring knowledge in advanced technologies.
- Developing new curriculum in training programmes for students to match the industry requirements
- To develop students into successful entrepreneurs for the economic development of the country

Challenges

- Students with diverse background.
- Balancing administrative, academic and research work.
- Constant challenge in technology.

- To forge strong alliances with National and International organizations for academic and R&D activities in thrust areas of engineering, Technology, and Management.
- To get 100% employment

52. Future plans of the department:

- Department will give more emphasis for improving teaching methods.
- Organize workshops and lectures by distinguished Professors from National Institutes.
- The Department has to conduct Seminar/Workshop for students of MCA once per two months.
- Improving project work and research work under the direction of such qualified people who will aid the students getting better technical exposure and better place in the job market.
- Need to collaborate with foreigners to share the information and mould our students more knowledgeable
- We eagerly search more number of sponsored events to increase the number of workshop/conference/seminar to gain more practical knowledge for both students and Research scholars.

Yes. The department obtains feedback from all its stakeholders periodically.

Feedback on Curriculum as well as Teaching-Learning-Evaluation is taken from Teachers. Feedback from students is also collected on the teaching performance of their teachers' as well as their campus experience. The department organizes annual Alumni Meet and collects the feedback from the alumni on curriculum and placement opportunities for the students. Feedback is also collected from industry experts, recruiters, parents and non-teaching staff members also. The Academic Planning Committee analyzed the Feedback, where the rationality, objectivity and relevancy of the opinion are strictly judged and the report is submitted to the higher authority for effective implementation.

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied:

The University R &D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Research Projects and publications in various forms. The faculty members of the department published research articles in various reputed research journals and participated in conference/seminar/workshop. The department is WI-FI enabled, thus help the faculty members to upgrade their knowledge base. The total citations, h-index and i-index of the faculty members are given below.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

- **Strength**- Good infrastructure, qualified faculty members, industry oriented curriculum.
- **Weakness** – Limited research facilities.
- **Opportunities**– Carrere opportunities are available in government sector and private sectors as well in other thrust area of chemistry.
- **Challenges** – Admission, placement, quality maintenance and faculty retention.

52. Future plans of the department:

- To apply research grants with DST.
- To organize seminars/conferences.
- To start M.Phil. programme in Mathematics.
- To start Ph.D. programme in Mathematics.

execute various action plans in this regard. In the beginning of the session every faculty member produces their course plan, which is a guideline for the faculty members. Apart from this the class monitor monitors the proper engagement of the class. Faculty members use both formative and diagnostic evaluation method to make their learning productive. The Head of the Department meets faculty members once in a week, where the problems and prospects of the teaching-learning system of the department discussed. As per ordinance of the programs two sessional tests are conducted within the semester. Students who are found weak in certain subjects are given remedial instruction, such as extra class and tutorials. Various innovative pedagogy are used, such as: Mastery learning, group project, peer mentoring and active learning. Guest lectures are also conducted by external experts for ensuring better productivity in learning outcomes.

The University R & D policy inspires faculty members in engaging research activities for generating new knowledge. These activities include faculty participation in various National/International academic forums, conduction of Research Projects and publications in various forms. The faculty members of the department published 14 research articles in various reputed research journals and participated in 06 conference/seminar/workshop. The department is WI-FI enabled, thus help the faculty members to upgrade their knowledge base. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

51. Detail five major Strength, Weakness, Opportunities and Challenges (SWOC) of the department.

Strength-

Good infrastructure, industry oriented curriculum and well qualified faculty members.

Weakness-

Research facilities are limited.

Opportunities-

Carrier opportunities are available in government sector and private sectors as well in the thrust area of physics.

Challenges-

Admission, placement, quality maintenance and faculty retention.

52. Future plans of the department:

To start B.Sc. (Electronics), M.Sc. (Electronics), and M.Sc. (Renewable Energy) from 2016-2017 session and Ph.D. Onwards.

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.

Yes, The following exercise is conducted by the department before the development of a new program.

- The Academic Planning Committee submits the proposal to the Dean/Director of the Faculty.
- The Dean/Director examined the feasibility and utility of the program so far as industry specific employment opportunity is concerned
- The proposal then discussed in the Board of Studies of the Department. According to the suggestions of the BoS, necessary change and modification are brought in the proposal.
- Then the proposal is kept for discussion in Faculty Board. As per the recommendation of the Faculty Board, the proposal is further modified and submitted to Vice-Chancellor for his approval, so that it can be an agenda item for the Academic Council Meeting.
- Once accented by Vice-Chancellor, the proposal is kept in the Academic Council Meeting.
- Once the Academic Council approves it, it is sent to the Executive Council for final approval.
- The approval of Executive Council is the final in this regard and the program is flouted in the department.

b. Students on staff, curriculum and teaching learning evaluation and how does the department utilize the feedback? :

c. Alumni and employers on the programmes offered and how does the department utilize the feedback?

Yes. The department obtains feedback from all its stakeholders periodically.

Feedback on Curriculum as well as Teaching-Learning-Evaluation is taken from Teachers. Feedback from students is also collected on the teaching performance of their teachers' as well as their campus experience. The department organizes annual Alumni Meet and collects the feedback from the alumni on curriculum and placement opportunities for the students. Feedback is also collected from industry experts, recruiters, parents and non-teaching staff members also. The Academic Planning Committee analyzed the Feedback, where the rationality, objectivity and relevancy of the opinion are strictly judged and the report is submitted to the higher authority for effective implementation.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength:-

1. Excellent Infrastructure.

2. Good acceptability in the job market. Almost every student is placed.

3. Extensive teaching schedule with training of students as per demand of the industry making them employable.

Weakness:-

1. Not able to receive grants from funding agencies.

Opportunities:-

1. Since our university has a medical College the first opportunity is to prepare Doctor in Pharmacy for future growth of Pharmacy profession. The need of hour is from "Product to Practice".

Challenges:-

45. List the teaching methods adopted by the faculty for different programmes.

- Faculty of Fine Arts has six departments as Animation, Applied Art, Fashion & Textile, Painting ,Performing Arts & Sculpture. All the departments have UG & PG programmes on semester basis. These programmes are having practical and theory based subjects.
- Motivation & Teaching methodology are the core area of these disciplines. Faculties are adopting key strategy to make their classes interesting and full of knowledge. For such kind of activity they are use to take lecture through Software's, PPT & Tutorials (You tube), short projects, Demonstrations in various techniques such as Recycling of Wastes, Innovation in practical techniques as how to paint without brushes and pencils, dresses and accessories through rags practically, Small targets to earn money, Group projects, Group discussions, Outdoor classes, Grooming sessions and beyond syllabus activities for practical development.

46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? **:**

- The Fine Arts requirement reflects the importance of creative and artistic expression within the Dominican tradition. The mission of Providence College requires that students are educated as moral, spiritual and intellectual beings. To accomplish this goal, students must be provided with artistic activities as well as develop the aesthetics dimension of their minds and sprits.
- The Fine Arts core seeks to foster students understanding and appreciation of the arts and of the aesthetic in the human and natural world. It encourages students to reflect on aesthetics as a way of integrating the multifaceted dimensions of human experience. Through such reflection students can develop a richer understanding of the meaning of life and of the moral and spiritual values that students are encouraged to develop lifelong practices of arts appreciation and of considering the role of aesthetics in broader human and social questions.
- The Fine Arts requirement can be fulfilled through courses that emphasize the historical development of different forms of arts, as well as those that emphasize hands of student's involvement in the

creation of works of Fine Arts, Music, Dance, Animation and Fashion Design.

- The graduates and post graduates have ample career opportunities at various levels and centers. Professional enrollment can be at various levels and posts which include: Fashion Designer, Merchandisers, Apparel Production Managers, Quality Controllers, layout Designer, Creative head in Advertising Agencies/ Industry, Film Studios, production house, Illustrator in Print Media, Editor, Animator, compositor, Graphic Designer, Web Designer, Art Director, Script Writer, Choreographer, Music Composer, Back ground Artist, teaching in Schools/ Colleges, Sculptor, Art Décor and Freelancer.

49. State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. **Yes**

(1) Bar Council of India and University Grants Commission New Delhi.

(2) '**Flair Talk'**, a Legal Lens View Magazine, Registered with Registrar of Newspapers for India under Registration No. 128414/2014) , ranked Faculty of Law (Sardar Patel Subharti Institute of Law) **5th** in overall rating amongst the Law Colleges of Private Universities across India.

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

(A) MOUs signed with National organization: Global Institute of Intellectual property, New Delhi and also with Faculty of Law in Osijek J.J Strossmayer University

(B) In a very short span, students of Sardar Patel Subharti Institute of Law brought Laurels by taking active participation in

- National Power Point Presentation completion
- Moot Court Competition
- Paper Presentations
- National Model Directors Meet
- National Seminars
- Legal Aid and Awareness Camps
- Community legal Services
- Police stations visit

(C) Legal Clinical Cell has been constituted. Under this cell students provide consultancy to visitor under the supervision of faculty in charge.

(D) Moot Court Association had been constituted under the bale guidance of Dean faculty of law. This is a student body with one faculty in charge. This student body works for mooting skill enhancement amongst the students of the college.

(E) Refresher classes are organized on several subjects of domain areas of Laws for the preparation of placements of 5th year students.

Getting admission in Subharti Law College is a matter of much pride. It offers co-education so as to nurture a gender free environment where thirst for knowledge's and development of academic skills are diligently inculcated in the latest technologies in Law, innovatively.

The College is dedicated to develop positive attitude, interest and passion towards legal profession among its students while imparting an in-depth insight and understanding for contemporary issues through Legal Aid Camp, Human Rights Campaign etc. besides also preparing the students to meet Global Challenges.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength-

1. Culturally diverse and vibrant Student community on campus.
2. Some Faculty members are having multifarious experience and with multicultural exposure which make learning easy and interesting.
3. Location of the college makes it helpful to connect it with National capital for various internship opportunities for students and further the surrounding villages which make easy to understand the grass level issues while legal aid camps. Further college is providing vocational training & legal education to develop the society in turn.

- **Weakness**

1. Grants are not available from regulatory bodies.

2. State High Court is too far and students are not getting frequent advocates, judges from the same and even students are not getting much exposure because of the distance of the High Court.

- **Opportunities**

1. Only Institute to provide super specialty courses wherein the students have the opportunity to either work in the core sector or practice as a lawyer because of the uniqueness of the course offered, whereby each student studies all the courses made mandatory by the Bar Council of India. Besides electives in the final semester of the course
2. College has immensely helping towards the community legal services with the cooperation of District Legal Aid Authority and further to develop status of Legal education in the state with the support of various stakeholders.
3. The College has ample scope for developing the knowledge

base through the appointment of qualified faculty and staff.

- **Challenges**

I. Competing with other Top Law Universities in India but they have patronage of apex court and ample/ enormous govt funds.

II. To be the sought out destination for legal education in the world and in the state.

III. Removing language and other barriers if any and thereby removing certain hardships for some of the students.

52. Future plans of the department:

- To start B.A. (Law) Honors Course
- To start Master of Art in Human Rights
- To establish Buddhist- Study Center
- To collaborate with other faculty of the other Universities
- To convert the College in a center of excellence of International repute. Besides, making a continuous effort to 'internationalize' our education, a step towards which has already been initiated by wooing students from as far as Zambia and Bhutan.
- To develop centre of excellence for providing trained human resources with expertise in laws along with skill in litigation.

The University/Institution may note that:

1. The Institution will offer only such programmes through distance mode which are offered by the Institution through regular face-to-face mode and approved by the Joint Committee of UGC-AICTE-DEC as mentioned in this letter. The Institution will not offer any other programme though distance mode other than those approved by the Joint Committee of UGC-AICTE-DEC.
2. The nomenclature of the programmes should be strictly as prescribed by the UGC/AICTE and approved by the Joint Committee of UGC-AICTE-DEC.
3. The eligibility conditions and duration of programmes will be as per the DEC norms and for professional and technical programmes as per the norms laid down by the AICTE. No admission to MBA, PGDBM and MCA programmes can be done without ensuring that that the student has secured a valid score in the entrance test examination for this purpose.
4. The Institution shall limit admission to maximum 60 seats per programme per Study Centre for Management, Computer & IT, and Allied Health Sciences programmes. For laboratory/Practical work, the institution can have a maximum of 30 students in a batch subject to maximum 60 students per Study Centre. The Study Centre be owned by the University and should be opened with the approval of EC/BOM of the University concerned.
5. The Institution should have at least one full time faculty member exclusively for coordinating each programme.
6. Regarding territorial jurisdiction for offering programmes through distance mode the latest UGC notifications will prevail over all previous notifications and circulars. As per the UGC notification, State Universities (both private as well as Govt funded) can offer programmes only within the State and Deemed Universities from the Headquarters and in no case outside the state. However, Deemed Universities may seek the permission to open off campus centers in other states and offer distance education programmes through the approved off campuses only after approval of UGC and DEC. Central Universities will also adhere to the UGC norms. The territorial jurisdiction for the Institutions (both private as well as Govt funded) shall be the Headquarters, and in no case outside the State. Thus, the territorial jurisdiction of your Institution shall be **Uttar Pradesh** State.
7. The Distance Education Council prohibits franchising of Study Centres. Thus, your Institution will not franchise any Study Centre.
8. The Institution's management of the distance education programmes will be open for review and inspection from time to time by DEC to provide inputs for further improvement or as deemed necessary. The academic norms of the programmes shall be under monitoring and regulation by the concerned regulatory authorities.
9. For management and Computer Science programmes, the Institution should also note that
   - The programme should have a mandatory internship of six months;
   - Institute/University concerned should seek accreditation from National Board of Accreditation as per prevailing rules;
   - Institute/University concerned should have concerned Department and the conventional universities should have on campus programme on offer;
   - Institute/University concerned should not have advertised for the programmes before receiving the approval letter;
   - Institute/University concerned should disclose, on line, in public domain the details of the student admitted, centre-wise, as per the format to be prescribed by AICTE;
   - Institute/University concerned should ensure delivery of the course material on-line with in one year of the date of approval;

It may be noted that before launching the programme the Institution should submit an affidavit within 30 days from date of issue of this letter that it agrees to and will abide by all terms and conditions contained in this letter. In case, the DEC does not receive the affidavit within 30 days from date of issue of this letter, the approval accorded to your Institution will be considered as withdrawn. Further, if it is found that the Institution is flouting any norms, then the recognition accorded to your Institution will be withdrawn without any notice.

Thanking you,

Yours sincerely,

(Manjulika Srivastava)

Sub: Swami Vivekanand Subharti University, Meerut - Recognition of MD(Paediatrics) qualification increased against intake 2 to 3 seats in respect of students being trained at Subharti Medical College, Meerut.

Sir/ Madam,

I am to state that the General Body of this council at its meeting held on 26-27/03/2015 considered the Council assessor report (09.05.2014) on the standard of examination and other teaching facilities available at Subharti Medical College, Meerut for purpose of Recognition of MD(Paediatrics) qualification increased against intake 2 to 3 seats granted by Swami Vivekanand Subharti University, Meerut.

The Council approved the following recommendations of the Postgraduate Committee, which I am directed to convey herewith for your information and necessary action:-

"The Postgraduate Committee considered the assessment report (09.05.2014) and decided to recommend that MD(Paediatrics) qualification increased against intake from 2 to 3 seats granted by Swami Vivekanand Subharti University, Meerut in respect of students being trained at Subharti Medical College, Meerut be recognized and included in the 1st Schedule to the I.M.C. Act, 1956.

The Postgraduate Committee further decided that the recognition so granted shall be for a maximum period of 5 years from the date of notification upon which the institute shall have to apply for renewal of recognition. Failure to seek timely renewal of recognition as required shall invariably result in stoppage of admission to the postgraduate course."

A copy of assessment report is enclosed herewith.

Sir,

Legal Education Committee at its meeting held on **18th October, 2015** considered the above mentioned subject. After consideration, Committee made the following recommendations: -

The Legal Education Committee considered the inspection report submitted by the inspection team. After consideration the Committee is of the view that **Sardar Patel Subharti Institute of Law, Swami Vivekanand Subharti University, Meerut, Uttar Pradesh** be granted **extension of** approval of affiliation for running **five year B.A. LL.B.** course with an intake of **two sections** of 60 students for a period of **three years** i.e. academic year 2015-2016, 2016-2017 and 2017-2018 subject to the following conditions:

1. The college must appoint a regular permanent qualified principal for the college.
2. The Law College must provide the Legal Aid Clinic as per Clause—11, Schedule—III of Rule—11 of the part IV of the Legal Education Rules-2008. It must be at the entrance of the institute.
3. The Moot court room should modify as per norms of the BCI.
4. The number of Law-Books as well as non-Law books is not sufficient. The College must purchase more books during the academic year. The Law College should purchase law books well as non-law books for the said course worth of Rs. Fifty thousand every year and provide Wi-Fi facility to the students.
5. The Law College should ensure the payment of salary to teachers as per Rules 22 schedule III, Part IV of BCI Rules.
6. Teacher Student ratio shall be 1 : 40.

Further, the college should follow the attendance rule and file reply that they are going to follow the aforesaid rule. The next inspection team must see whether the said rule is being followed by the university or not. The relevant Rule 12 is given below :-

"12. End Semester Test: No student of any of the degree program shall be allowed to take the end semester test in a subject if the student concerned has not attended minimum of 70% of the classes

Provided that if a student for any exceptional reasons fail to attend 70% of the classes held in any subject, the Dean of the University or the Principal of the Centre of Legal Education , as the case may be, may allow the student to take the test if the student concerned attended at least 65% of the classes held in the subject concerned and attended 70% of classes in all the subjects taken together. The similar power shall rest with the Vice Chancellor or Director of a National Law University, or his authorized representative in the absence of the Dean of Law.

Provided further that a list of such students allowed to take the test with reasons recorded be forwarded to the Bar Council of India."

Institution should submit affidavit in compliance to the above conditions within six weeks.

College authorities are also required to apply to the Bar Council of India for further extension of approval six months in advance before expiry of the period of approval of affiliation granted by the Bar Council of India i.e. on or before 31st December, 2017 in respect of five year BA LLB law course.

The above recommendations were considered by the Bar Council of India at its meeting held on 18th October, 2015 and accepted the same.

This is for your information and necessary action.
